**Our Merchandise** is all selected for dependability, service and appearance. Our buyers are men trained to purchase goods which will be most satisfactory to our customers. Their salaries depend on pleasing you, and they can do it more than 99 times out of a hundred. This is due to their unlimited opportunities to study and observe the furniture in all the processes of making, right at the factories. They do not merely see the finished product, but every stick and screw which is used in its manufacture.

**Our Shipping Experience** has taught us that good packing, expert labor and better materials pay for themselves in nearly every case. Their use enables us to guarantee safe arrival, saving returns and bothersome freight claims.

**Woods** used in our furniture are selected for dependability and appearance. All are thoroughly seasoned and kiln-dried. Our cheapest articles are made of solid stock. Most of our better grades are made of built-up, laminated, three or five-ply veneers. These are much stronger than solid woods, very unlikely to ever warp, twist or split, if given ordinary care, and enable the rarest select figurings to be shown to the greatest advantage.

**Finishes** are all standard. Oak is usually quoted in the light golden, the most popular finish for all kinds of furniture. Many pieces of living room and other furniture are now supplied in the new nut brown fumed. This is a very popular and wonderfully durable shade which harmonizes with every color. It will stand much severe usage, and still look almost like new. Ordinary scratches do not show. For these reasons, and because of its stylishness, we greatly recommend it. We quote a number of items in imitation quarter-sawn oak. This is an artificial graining put on birch, maple and other hard woods. Experience has proven its substantiality. It is usually chosen in preference to solid plain oak, when both are seen side by side, yet costs little or no more. As the graining is under the varnish, it won't come off except through rare accident. All sizes are extreme outside measurements, so you can easily tell if any article will go into your space.

**Our Beds** are of steel, remarkably smooth. The enamels are all baked on to stay on, and are smooth and lustrous. Vernis Martin is a handsome finish which looks very much like satin-finished brass. It costs more than white, being put on in several coats and containing copper, which gives brass its color, and which is very expensive since the war started. All are of standard length, 76 inches.

**Our Floor Coverings** represent the cream of the newest designs. When ordering linoleum, carpets, etc., be sure to give a diagram showing the shape of your room and all measurements. We will check your yardage to be sure you have figured correctly, and will also cut and match the goods for you. In most cases, we can save you both money and trouble, when room measurements accompany your order.

**Never Unroll Linoleums** after they have been exposed to cold until they are thoroughly warmed through. Stand them by the stove for two days before unrolling. We cannot permit the return of cracked linoleums, because it will never crack if thoroughly warm and handled with due care. When laying linoleum, leave a small margin all around the edges and don't fasten it in any way. If you do, it will bulge after a while and possibly break. After it has been down about two weeks it will stretch and a few brads may be used to fasten it. Never use tacks.

**Our Stoves** are built by one of America's biggest and oldest foundries. They know how to build extra fine stoves, which we guarantee absolutely. Parts can be supplied at any future time.

**Our Mattresses** are much better than many sold for much more money. The reasons are plainly explained on the first mattress page. Mattresses sometimes are short when first received, because of being rolled. They will be correct after a little use.

**Our Refrigerators** are away above the usual run. They are all oak, finished nice enough for the dining room. You will be proud to own one—and still the prices are the lowest.

**Our Best Upholstered Furniture** is made in the largest cities, where the best and higher priced labor is always procurable. The result is superior looking, long lasting and better upholstering.

**Our Sewing Machines** are guaranteed equal to any manufactured. You can try them a month or more to prove it, too. Yet our prices are about half what agencies and agents ask.

**Our Bed Springs** are of the best procurable materials, made in large, up-to-date, sanitary factories.

**We Could Talk all Day** about many things which space forbids. We want a trial order on approval. It will tell you more than we can about our values, and that's bound to interest you most.

# Regarding Home Furnishing Shipments

Our profits are figured very closely, and so we can not and do not pay freight charges. The prices you pay are so low that after you have added the freight charges (which are very reasonable on furniture and household goods) you still affect large savings.

The freight and express rates given below will enable you to estimate what any order will cost you for transportation. The rates are given to a few cities in each state. Rate to nearby points can be easily approximated.

The freight rates given are those taken by most furniture, dressers, kitchen cabinets, carpets and rugs, sewing machines, buffets, dining tables, washing machines, chairs, floors, mattresses, bed springs, desks, etc. Articles which are heavier, but no bulkier, such as iron beds, refrigerators and stoves take somewhat lower rates. Light articles which take up considerable room take somewhat higher rates.—chairs and rockers, bookcases, china cabinets, etc.

In order to save you freight charges, we ship many articles in compact form. A few minutes' time will put them together, and you save much freight, extra cost and weight of crating materials, etc. This also assures safe arrival. Some of the things shipped in this way are rockers, chairs, dining tables, library tables, davenport, cupboards, kitchen cabinets, and wardrobes. You can pay to have them put together and still be the gainer. However, you can do it just as well yourself and save the money, too.

Freights are frequently less from factory points than as quoted below. Many articles can be shipped from either Pittsburgh or Chicago, or other similar points. Such shipments are always made with the view of saving you all possible charges.

If there is no freight agent at your nearest station, it is usually advisable to have valuable shipments sent to the nearest station at which there is an agent. This is advisable because the railroad is not responsible for shipments to stations where they have no agents, and in case of loss or damage, it is difficult to get proper redress. If it is very inconvenient to have shipments made to such stations, we will ship to stations without agents, providing you send the money for prepaying charges with your order. To know how much money to send for prepaying freight, add the weight of the various items ordered, and multiply by the rate per 100 lbs. to your nearest point quoted in the table below. Send us the amount figured and if it is more than necessary, the difference will be refunded to you. When goods are ordered shipped to stations having agents, don't send any money for prepaying. It is easier and better to pay the agent when you get the goods.

See that your order amounts to 100 lbs. or more, so it can be shipped by freight, which is the most economical way.

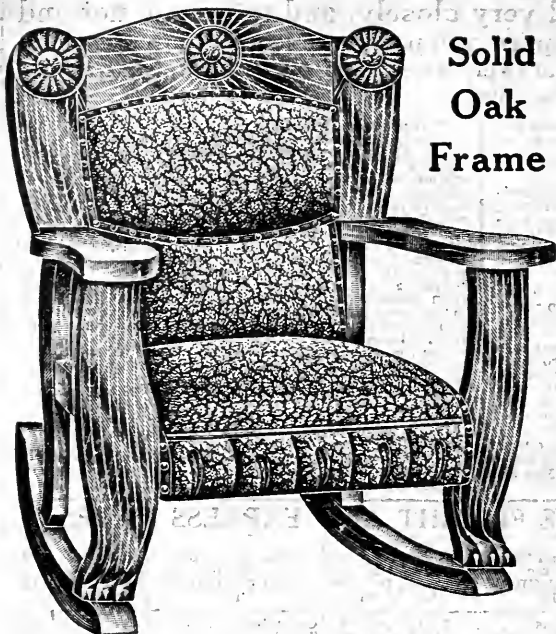

We don't ship C. O. D., because we want you to pass judgment on our values in your home. A crated piece of furniture or a stove may not look one tenth as good as the depot as when just put in place in your home, so we don't get a fair deal, and neither do you.

We urge you to order promptly. Don't wait if you can help it, and you won't be disappointed by finding a certain article all sold out, or the price advanced.

# Leader Price, \$4.95

**Solid  
Oak  
Frame**

This unusually handsome, sensible rocker is now offered at a price that will save you lots of money. Your special attention is called to the design, which is successfully gotten up to combine the greatest beauty with the most comfort.

The most prominent parts of the frame are of solid oak, artistically fluted and embossed on front of posts and frame of back. Arms are shaped to conform with the design of the front posts.

The seat measures 19 by 19 inches and is softly and uniformly upholstered with tow and cotton felt over four coiled springs supported on tempered steel bands to prevent sagging. The back is set at a comfortable angle and extends 25 inches above the seat. Total height from floor 37 inches. Extreme width 31 inches.

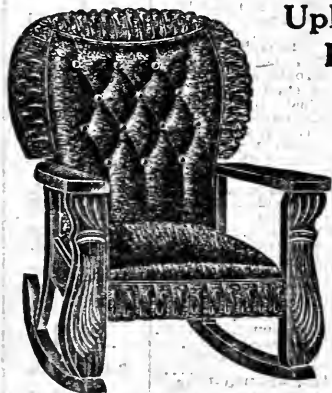

The back is softly upholstered in the new two pillow effect without tufting. The three hand made rosettes ornamenting the top are of the same material as the seat and back. This is a good grade of imitation leather with a very heavy cloth back, in either black or the new brown Spanish. Shipped from Pittsburgh stock or factory in West New York.

Its knock-down construction enables it to be shipped in compact form, cutting the freight rate in two and materially decreasing the weight and expense of crating material. Shipping weight about 42 lbs. Easily and rigidly set up by anyone in a few minutes time.

943006A Black upholstery.....\$4.95  
943006B Brown Spanish upholstery 5.25

**This PLEASING Pattern  
Upholstered  
Rocker**

**\$5.45**

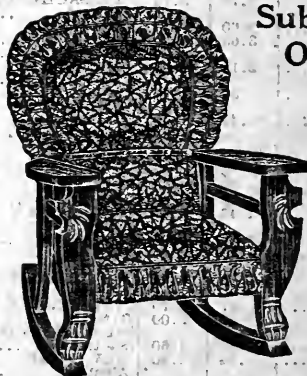

The back of this rocker is higher than on the one above and is rounded for exceptional comfort. Diamond tufted as shown with non-pull-out buttons. Hand-made ruffles on top, at sides and on front of seat. The 19-inch seat is upholstered over four large spiral springs.

Exposed parts of frame are of solid oak, golden gloss finish. Front posts are extra wide and deeply embossed. The back is slanted for comfort and extends 26 inches above the seat. Upholstered with good imitation leather, either black or Spanish brown. Shipped in compact form from Pennsylvania factory. Weight, 45 lbs.

943008 Black upholstery.....\$5.45  
Spanish brown upholstery.....6.75

**NEWLY DESIGNED  
Substantial  
Oak Frame**

**\$5.95**

This artistically proportioned rocker is of the same size and first-class construction as the one at the left. The frame is solid oak, golden finished. Shapely front posts, artistically embellished as shown. Wide arms with extra cross slats below. Back is of two-pillow effect, slanted and rounded for great comfort. Double ruffle all around is hand made, as is also the front ruffle. Roomy back and seat are smoothly upholstered without any tufts. Bolted construction assures permanent rigidity and enables it being shipped in compact form, cutting the freight rate and cost of excessive crating. Weight, 48 lbs. Shipped from Penna. factory. Coverings are black or brown Spanish imitation leather of good appearance and wearing quality.

W. & H. WALKER

Pittsburgh, Pa.

# This Upholstered Reclining Back Rocker with Foot Rest, will Bring You Rest, Comfort and Real Contentment

# \$7<sup>85</sup>

**SOLID OAK**

Did you ever see a home without a rocking chair? Probably not, because there is no article so necessary, satisfying or useful. Money invested in food or clothes never give such permanent comfort.

A perfect rocker must have a comfortable seat, both soft and roomy. It must have a back set at a restful angle. When you add an adjustable footrest and an adjustable back, you have something luxurious and of wonderful superiority.

Because this has all these features of a perfect rocker, we recommend its purchase very strongly. We have less expensive rockers, and higher priced ones too, but none which will give more comfort per dollar invested.

Besides, the price is so reasonable that everyone can afford to enjoy its comforts without depriving themselves in any way.

**ORDER ONE  
ON  
APPROVAL**

**Note the Adjustable Upholstered Disappearing Foot Rest**

**Note the Adjustable, Reclining Back**

The small illustration shows the appearance when the foot rest is not in use. It can't be seen.

Here is more solid comfort to the square inch than has ever been offered within many dollars of our price. Think how many hours of luxurious ease you will have for each penny invested. Large roomy seat set on base of steel springs supported by steel bands which prevent sagging.

The seat measures 19 inches wide and 19 inches front to back, and is padded with elastic cotton over tow filling, assuring the greatest resiliency.

Back is wide and extra high, softly upholstered and reclines at any desired angle by means of a brass rod adjustment. The foot rest folds back underneath the seat when not in use and is entirely out of sight.

**Pittsburgh, Pa.**

**W. & H. WALKER**

The upholstery is a durable grade of imitation leather, either black or the new tan Spanish. The frame is made wholly of kiln-dried hardwood, visible parts of solid figured oak. Wide, shapely arms. Neatly embossed, front posts, sides of back and front strip. The finish of the frame is a rich, light, durable golden oak.

A special method of construction permits this rocker being shipped in compact form, saving you freight and assuring you of safe arrival. Shipped from New York factory in wood fibre crate. Weight, about 65 lbs.

# Two Startling Rocker Values which Must not be Overlooked

## YOU SHOULD HAVE THIS ROCKER IN YOUR HOME

LUXURIOUS COMFORT

*IN the last few years many improvements have been made in rockers. We want you to see this in your own home and see what luxurious rest and comfort can be put into one rocker. When you recline the back after a hard day's work, and put your feet on the upholstered foot rest, you will think life is well worth while after all it you have a few of the necessary comforts.*

**Try it at our risk.**— Use it 30 days and then if you don't think you have many times your money's worth, return it at our expense. Your freight charges and entire remittance will be refunded as soon as you make the return. We won't even wait to get the rocker back. Could you think of a fairer proposition?

Made with a solid oak frame in the new nut brown finish. Adjustable back and disappearing upholstered foot rest. Shaped arms and front posts. 10-inch spring seat. Pillow head rest with strap ornamentations. Large magazine racks under both arms. Shipped from New York. Weight, 65 pounds.

**943010** Black imitation leather.....\$9.65  
**943011** Brown Spanish imitation leather.....\$9.85

Large Solid Oak Rocker  
Nine Posts Under Arms  
Spanish Upholstery

**\$7<sup>35</sup>**

In the olden times only very rich noblemen were permitted to own chairs. Rockers were unknown, and such things as spring seats were undreamed of.

Nowadays it's very different. Everybody can have comfortable, attractive home furnishings without stinting themselves. Even the very poorest can easily afford to own this excellent rocker.

Its rare restfulness is due to the perfect balance and form-fitting back which is padded extra thickly at the bottom. The seat measures 19½ by 18½ inches and is smoothly upholstered over four steel springs secured by steel channel bars. Heavy solid figured oak frame, finished either a clear, durable golden gloss or the new nut brown fumed. We recommend the fumed finish on account of its remarkable serviceability. Back is high, with best English tufting as illustrated, and slanted at a restful angle. Shaped front posts and wide arms with nine square uprights under each. Upholstered with brown Spanish imitation leather of good quality. Shipped in compact form. Permanent rigidity assured by bolted construction. Weight, 70 pounds. Shipped from Ohio.

# A BIG OVERSTUFFED EASY ROCKER AND A BIG BARGAIN TOO!

**SPECIAL SALE PRICE** **\$7<sup>85</sup>**

*Graceful Design  
Substantially Built  
Very Comfortable*

**Brown Spanish  
Upholstery**

**A Chair  
That Will Be  
Pleasing  
to Every  
Member of  
Your Family**

**Wouldn't your living room look a lot better if you had a new rocker or two for it? Our Special Sale Price puts it within the reach of everyone. Fill out your order blank now and add any other articles which you are needing to complete your home. We are anxious to have you get acquainted with the real, lasting worth of our furniture. We also want you to know how easily you can get what you need by dealing with W. & H. Walker's big Mail Order House.**

Here are a few of the reasons why overstuffed rockers are so popular:

They are luxurious in both appearance and use. Having practically no wood parts exposed, they do not become scratched or marred easily. You don't have to worry about children climbing on them. They are most easily kept clean. No polishing is ever required. If covered with leather or imitation leather, like warm soap suds or leather dressing should be used occasionally.

The greatest of comfort is assured by softly upholstered spring seats, backs which conform with the body and padded sides and arms. We recommend the imitation and genuine leather coverings, as they represent the maximum of service for the least cost. That's why hotels, churches, public buildings, railroads and automobile manufacturers use these coverings almost exclusively.

Pittsburgh, Pa.

Notice the simple but exceedingly artistic outline of this large colonial design. One of the greatest values we have ever offered. 20 by 20 inch seat softly upholstered over the five-inch Premier oil-tempered springs supported on truss steel straps. The back also contains springs and is extra large, measuring 27 inches from the seat and 27 inches wide at the top. Slants at a most comfortable angle. The arms sweep outward from the seat, measuring 29 3/4 inches across. Flattened at top for extra comfort.

Covering is a good wearing quality of imitation leather with a heavy cloth backing and greatly resembles genuine mottled brown Spanish leather. Shipped in compact form, cutting the freight rate in half, reducing the weight of unnecessary crating and assuring safe arrival. Quickly and rigidly set up by anyone. Shipped from factory in Central Michigan. Weight 55 lbs.

## A Colonial Design Rocker of Unusual Grace and Beauty

**This magnificent Colonial designed rocker has** massive scroll sides, posts and feet. These parts and the runners are the only wood parts exposed, and are finished in the new nut brown fumed finish or an attractive shade of mahogany. The back, seat, front, arms and sides, both inside and out are covered with a splendid wearing quality of imitation leather. Seat is softly upholstered over nine steel springs supported by three heavy steel bars, measures 20 by 19 inches. The back is 26 inches high from the seat, total height, 40 inches. The design is an actual reproduction in size and pattern of a \$35.00 genuine leather rocker. Balanced just right for the most comfort, and built to withstand years of continual service, and still look well. Shipped knock-down, cutting the freight rate in two and materially decreasing the cost and weight of packing materials. Shipped from Central Indiana. Weight, about 75 lbs.

# Rare Values in Fine Rockers

**\$13.95**

Every one of your friends should congratulate you on your good taste and judgment when you show them this rocker. Although ordinarily priced beyond the reach of many homes, our low prices enable anyone to own one.

The artistic two-inch frame is made of seasoned Northern birch, smoothly sanded and rounded. The finish is a beautiful hand polished, or dull rubbed mahogany, as you prefer. Upholstered with a high grade, beautiful and long wearing tapestry or genuine leather of guaranteed quality. Its great value is due not only to the perfect proportions, but to its great comfort and roominess. The seat and back are softly upholstered with extra resilient filling materials over the best of springs. Width between arms 21½ inches. Height of back from seat 26 inches. Shipped from Chicago, Ill. Shipped set up and crated. Weight, 60 lbs. Crated arm chair to match, at same prices.

## A Perfect Colonial Reproduction

**Extra Fine**

**\$18.95**

**Extra Large**

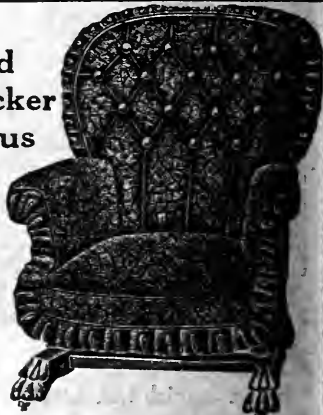

**\$18.45**

This \$27.50 rocker represents the finest of construction, woods and finishes. The very massive, broad and sweeping scroll arms, from posts, rounding seat front, etc., all show the choicest quarter-sawed oak, golden finish, or genuine mahogany. Both finishes are highly hand polished. Extra large and spacious seat is softly, smoothly upholstered over a full quota of tempered, never-sagging spiral springs. Back is slanted for the greatest comfort, generously padded and has a large roll pillow head rest. Its extra height makes it exceptionally restful. Notice the entire absence of tufting or ruffling, which makes it most easily kept clean. The shapely, sweeping curves of the wide, smooth frame show off the select woods to the greatest advantage.

The genuine leather coverings are of choice, guaranteed quality. Shipped set up and crated from Chicago. Weight, 95 lbs.

# Massive Genuine Leather Rockers

This massive colonial rocker is upholstered with genuine leather and combines luxuriance, comfort, grace, beauty and strength. The massive, shapely frame is of solid oak, hand polished golden; or northern birch, polished mahogany. 21 by 20-inch seat is softly upholstered over a hand-tied coil spring construction. The back is slanted at a comfortable angle for repose and is shaped to fit the lower part of the back. Restful pillow top, 7½ inches high. Scroll arms and shapely front posts are cut from extra heavy stock. Large arm panels of shield shape. Correctly balanced runners. This rocker is not of knock-down construction, but is shipped from Chicago set up and crated ready for use. Equal in looks, wear and comfort to most \$20.00 values. Weight, about 80 lbs.

The wonderful spring with which this is equipped actually doubles its luxurious comfort.

## Superfine Quality Loose Cushion Seat and Wing Back Rocker

There are a dozen good reasons why you should purchase this rocker. There isn't a rocker made which will fill so many requirements as one of this type. One reason is that it is enjoyed to the utmost by every one who sits in it. Another reason is that it looks well in any surroundings and matches all styles of parlor or living room furniture on account of its simple, refined design. Furthermore, it will stand much severe usage, and still look like new. This is due to the absence of exposed wood parts, and the extra strong and long-wearing coverings.

Although we can furnish it in genuine Spanish brown leather, we believe the imitation Spanish will give almost equally as good service. It will wear for many, many years, and can scarcely be detected from real leather.

The loose cushion seat is filled with silk floss and cotton, and rests on six non-sagging springs. Measures 20 by 19½ inches. Back is 27½ inches high from the seat, comfortably slanted and softly upholstered. Roll arms and restful side wings. Runners are finished mahogany, rubbed dull. Shipped set up and crated from New York factory. Weight, about 95 lbs.

# Inexpensive Rockers With Lots of Restfulness and Good Looks

The Best Looking Rocker You Have Seen in Many Days for **\$4.45**

**T**HERE are few women who do not realize the tone imparted to a parlor or living room by attractive rockers. They are permanent invitations to your friends, asking them to share your hospitality. As many of your acquaintances see only your parlor, its furnishing is worthy of your most careful thought.

The high, rounded and slanted back and deep roll seat of this rocker will delight you with their combined comfort. The artistically shaped panels beneath the arms extend unusually low, adding greatly to the attractiveness and strength. The cut-out ornamentations of these panels harmonize with the back bannister. Made throughout of rock elm, finished to strikingly resemble flaky grained quarter-sawed oak of special selection. Note the shapely arms, front posts, three back bannisters and slats. Heavy square underframe construction. The finish is a clear light golden gloss. Shipped in compact form, cutting the freight rate in half. Easily, rigidly and quickly set up by any one in a very few minutes' time. Will ornament any parlor materially. Weight, 23 lbs. Shipped from Pittsburgh.

**Solid Oak**

**Substantiality Combined  
With the Maximum  
of Comfort**

**S**IMPLICITY in furniture, as in wearing apparel, is a characteristic of good taste. Many luxurious homes are furnished with simplicity. Mission designs are consequently always popular and stylish. They combine exceptional durability and service with low cost. We particularly recommend the new nut brown fumed finish, as it requires practically no care, yet always looks like new.

A most attractive and restful removable spring seat rocker of mission design. Here is a substantial rocker, which will give you years of great comfort. The entire frame is of solid figured oak, the paneled back being of solid quarter oak. The back is rounded for comfort. It has a broad top panel and three large shaped uprights mortised into the slats for the greatest strength. Softly upholstered spring seat measures 20 by 18 inches. The front posts are square, tapered at the bottom. Note its heavy underframe construction, broad slats connecting the legs. The upholstery is imitation leather with a heavy cloth backing, and will outwear many grades of genuine leather. Upholstered over four springs with tow and cotton felt. Shipped from Pittsburgh stock or Central Ohio factory.

# ROOMY ROCKERS OF REAL REFINEMENT

**\$6<sup>95</sup>**

## Massive Mission Models

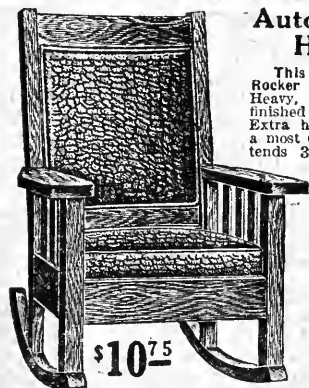

**\$9<sup>45</sup>**

Years of real comfort accompany every one of these substantial rockers. Solid oak frame is sturdily constructed on pleasing Mission lines. Broad arms have ornaments at front and artistic cut-out side panels which extend down below the seat frame, assuring extra strength and adding materially to the appearance. Finished in a rich light golden gloss or the new nut brown fumed. Slanting back is most comfortable, being softly upholstered and equipped with restful side wings as shown. Large oxidized upholstering buttons on top and front of wings. The seat is smoothly upholstered over guaranteed oil-tempered springs, and is very roomy, measuring 19 inches wide. Shipped in compact form from Pittsburgh or Central Ohio. The seat, back and wings are covered with a long-wearing, attractive imitation brown Spanish leather. **943021** Either finish ..... **\$6.97**

Great comfort and unusual beauty are combined in this adjustable back Morris rocker with footrest. The exposed parts of the frame are of solid oak finished in the new nut-brown fumed; 19 by 19-inch seat upholstered with taw and cotton over five springs. The back is upholstered in the new pillow and strap effect with comfortable heat rest, 2 1/2 inches high from seat, upholstered over six springs supported on steel bands. Upholstered footrest folds back underneath the seat, entirely out of sight, when not in use. Magazine racks for books, papers, etc., under both broad arms. Slat sides. Back is adjustable to numerous angles. Covered with an excellent wearing grade of imitation leather. Shipped in compact form from Western New York. Weight 65 lbs.

# Low in Price, but Substantially Made and Very Useful

**\$13<sup>65</sup> BUYS THE ENTIRE SET**

Price, quality and appearance are the three essential things which every person who buys furniture must bear in mind. We have all these to offer in this pleasing Mission suite of clean-cut pattern. Offered at a price which has been slaughtered to the quick.

**This 3-Piece Living Room Suite  
Is Good Looking, Comfortable and  
Well Constructed**

All three pieces are made of solid figured oak, finished a rich durable golden gloss, or the nut brown waxed fumed.

**Every Home-Loving Person Will Want  
One of These Sets.**

The chair and rocker have softly upholstered seats covered with a long-wearing brown Spanish imitation leather. The 23½-inch backs are of artistic design, slanted just right so that you will be able to obtain the most comfort. The sturdy arms are 3¼ inches wide, shaped and ornamented to harmonize well with the other woodwork. Cross slats of back are mortised into posts. Three broad upright slats, with cut-out ornamentations as shown.

The artistic mission table is 36 inches long, 24 inches wide and should be an object of envy to every housewife who really knows artistic proportions in furniture. Three slat ends are mortised into upper frame and lower cross pieces. Center slats have neat ornamentations which harmonize with the back of the chair and rocker. One roomy drawer with mission pull. Equipped with a full-length magazine

shelf, where every magazine and paper can be kept within easy reach. The oak used in the top is particularly selected for choice figure.

We purchased a large quantity of these sets from a well-known factory at a price which we estimate will save you 33 1-3 per cent or more. It is sold only in sets. Special knock-down construction enables it to be shipped compactly cutting the freight rate in half, assuring safe arrival and reducing the weight of crating, on which you would have to pay the cost and transportation charges. Anyone can put it together rigidly in a very short time. Shipping weight, about 100 lbs. Shipped from point of purchase in Ohio.

# Look at the Many Unusual Features!

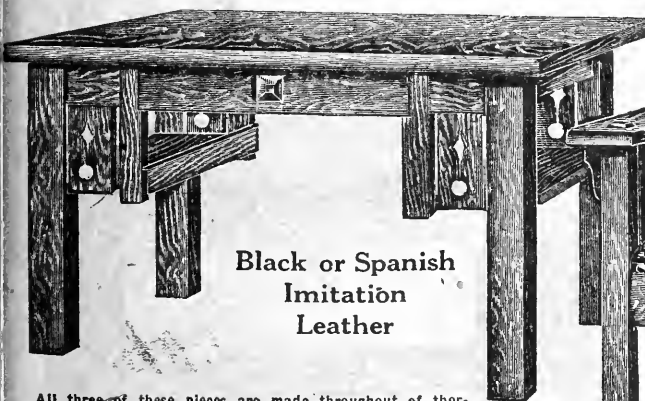

**Extra High Upholstered Backs,  
Spring Seats --- Book Rack Table**  
And our price on all  
three pieces is but **\$18.95**

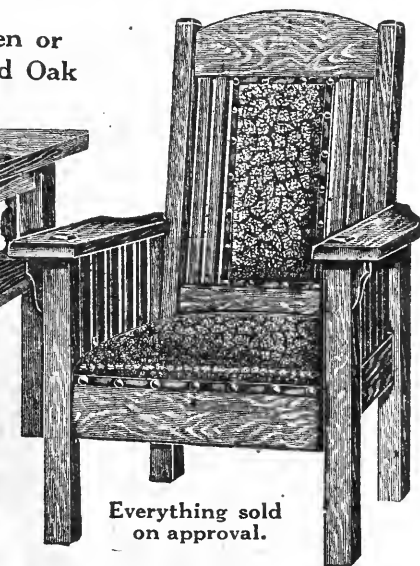

**SOLD IN SETS OR SEPARATELY**

All three pieces are so constructed that they can be shipped in compact form, cutting the freight rate in two, saving you more than half on account of the decreased rate and weight of crating material. Safe arrival assured. Easily and rigidly set up by any one.

**Golden or  
Fumed Oak**

**Black or Spanish  
Imitation  
Leather**

**Everything sold  
on approval.**

All three of these pieces are made throughout of thoroughly seasoned solid oak, finished a handsome light golden gloss of extreme durability, or in the new nut-brown fumed.

The rocker and arm chair both have seats softly upholstered over oil tempered steel springs which are supported at the bottom with steel channel bars to assure the greatest strength. The back is considerably above average height and has four vertical slats matching those used at the sides under the arms. Upper panel has rounded top and is mortised into the back posts for extra strength. Center back panel is smoothly upholstered with the same material as the seat, and adds greatly to the appearance and comfort. Legs are shaped at the bottom, arms are also shaped and surmounted with neat mission ornaments on top and braces below. Weight 40 lbs. each.

The table is of exceptionally pleasing design and usefulness. The top measures 42 inches long and 28 inches wide. Securely bolted legs are made from two-inch solid oak stock. At each end is a full width book rack with artistic cut-out ends. Shipping weight 75 lbs.

Pittsburgh, Pa.

W. & H. WALKER

The arm chair and rocker match in every respect and are of the same size. The back is slanted at a most comfortable angle. Spring seat and upholstered back covered with a good wearing black, or brown Spanish imitation leather. When ordering be sure to state whether you want golden or fumed finish. All pieces are shipped from Central Ohio.

# Pleasing Pieces for the Parlor at Low Prices

## VERY SPECIAL

**\$3.35**

Here is a very attractive center table at a real bargain price. Notice the shapely top, with heavy rim and large lower magazine shelf designed to correspond. The top measures 22 by 22 inches. The legs are artistically turned and deeply fluted. Mounted with brass finish ball and claw feet. Made of seasoned hardwood, grained and finished to strikingly duplicate large flaky grained quarter-sawn golden oak. Shipped in compact form. Easily put up by anyone—strong and rigid. Shipped from Pittsburgh. Weight, about 26 lbs. 941618 Price..... **\$3.35**

## Solid Oak

**98c**

Although most inexpensively priced, this table is well made and finished. When set up is rigid and strong. The top measures 16 inches square and lower shelf matches it in shape. Top has a small rim all around. Neatly turned legs. Made throughout of solid oak, neatly golden finished. If you want a small stand, this is sure to suit you at our low price. Shipped from Pittsburgh in compact form. Easily put together. 941619..... **98c**

## Another Special at \$1.69

Larger, heavier and stronger than the table above. Lower shelf is of artistic shape, rigidly secured to the smoothly, gracefully turned legs with knob feet. Made throughout of solid oak, finished with an extra good golden gloss varnish. The top is fitted with a neat rim for extra security. Measures 20 inches square. Standard height. Easily put together by anyone. Solid, substantial and an excellent value. Shipped from Pittsburgh. Weight, about 24 lbs. 941620 Price..... **\$1.69**

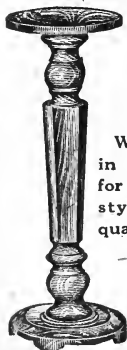

## Artistic Mission Design

### Elegant Design

**\$3.85**

Why pay \$6.00 in retail stores for its equal in style, size and quality?

This is, indeed, a magnificent pedestal. Made of solid seasoned figured white oak with quarter-sawn top, golden finish; or of northern birch finished in mahogany. Highly hand polished. 36 inches high, 12-inch round top, 4-inch post beautifully turned in ball and octagonal effect as shown. Heavy, substantial, artistically turned platform. Weight, 18 lbs.

941607 Oak..... **\$3.85**  
Mahogany..... **3.95**

42 inch **\$12.95**

48 inch **\$15.75**

Here's a chance to secure a strong, almost everlasting solid oak table at about half asked elsewhere for very similar styles.

The double thick edged plank effect top is of beautifully matched genuine quarter-sawn oak. Although we can furnish either size in a handsome light golden gloss finish, we particularly recommend the new, fashionable nut brown fumed finish. With its satin finish, it is not only most pleasing, but will stand much service, and even abuse, and still look almost like new.

Large center drawer with Mission designed wood knobs. Full-length magazine shelf below. Artistic ends with three broad slats mortised into wide cross bars for extra strength. Legs are 2½ inches square, with special bolted construction which assures great strength and rigidity in the years to come. This also enables shipping in compact form, cutting the freight rate in half. Shipped from factory near Pittsburgh. Weight, 100 lbs. and 125 lbs. Two large sizes.

941622 48 by 28-inch top, either finish..... **15.75**

# Handsome Library Tables at Lowest Prices

**\$8<sup>95</sup>**

You have no idea how much a table of this style will add to the appearance and usefulness of any room in your home.

Neatly designed and of most desirable size, top measuring 42 by 26 inches. Has extra large center drawer and extra wide, full length magazine shelf below. Neatly designed feet harmonize with the shapely colonial ends, which are of solid stock, showing up the artistic graining elegantly. Made throughout of seasoned hardwood, finished to greatly resemble choice quarter-sawed oak or matched mahogany. Oak finish is a rich golden gloss, and mahogany is dull rubbed.

Although built so as to save more than one-half on freight charges, it is much more rigid when assembled than set-up tables. This is due to the patented bolted construction. This special feature enables you to put any of our library tables together with very little time or effort. This also assures you of permanent rigidity, as the bolts are easily tightened, should they become loose at any time.

Compact shipment assures it reaching you in perfect shape, just as it leaves the factory in Southern Indiana. Weight about 95 lbs.

**Golden Oak or Mahogany Finish**

# A New Beauty in a Heavy Plank Top Design

**\$11<sup>95</sup>**

**Golden Oak or Mahogany Finish**

If you are able to appreciate the simple, but striking beauty of this design, you will be more pleased with the superb finish and unusual excellence exemplified throughout.

Built to suit those who appreciate furniture enough to be most particular. Made of seasoned Northern hardwood on massive colonial lines,—both the top and platform being of new plank effect and showing a double thick edge all around. The platform is artistically shaped to harmonize with the heavy scroll feet. One drawer with wood knobs. The four supporting columns measure 3 1/2 inches thick and are neatly mounted at the bottoms as shown. Finished to resemble select quarter-sawed oak or mahogany, the effect and

finish strikingly duplicating the genuine. Size of top, 42 by 26 inches. Bolted construction permits shipping in knock-down form, saving you excess freight and assuring safe arrival. Shipped from Wisconsin. Weight about 110 lbs.

Imitation mahogany.....10.35

## Artistic Empire Pillars

It would be hard to conceive of a more beautifully proportioned colonial library table of practical size. Top has square edges, rounded corners and measures 42 by 28 inches. Center drawer with wood knobs. The four massive 5-inch posts are set well under the ends, allowing ample knee room, and are gracefully shaped as shown. Extra heavy full-length magazine shelf and scroll feet. Special knock down construction enables it to be shipped in compact form, saving you freight and assuring safe arrival. Made of seasoned hardwood finished with an imitation golden quartered oak grain which strikingly resembles the genuine Weight, 100 lbs. Shipped from Central Indiana.

943039 Price.....\$11.95

**\$1195**

## New Oval Top Model

Compare this table with others sold in stores for \$20.00. See if it isn't equal in appearance, design and usefulness. We don't claim it worth \$20.00, but it looks it, and is a splendid value at our price. Made throughout of seasoned hardwood, artificially grained and finished to wonderfully resemble extra choice genuine mahogany. Finished in the new, most serviceable, dull-rubbed effect. The double thick and extra wide platform, pillars and scroll feet are of most pleasing Colonial design, adding dignity and strength. Bolted construction insures permanent rigidity and enables it to be shipped in compact form. This assures safe arrival and lowered freight rates. Oval top has larger drawer and comes in two sizes. Smaller size has five inch, large size seven-inch columns. Weights, 90 and 125 lbs. Shipped from Indiana factory.

## True Mission Design

This pleasing mission design library table with book racks is now offered at a very decided saving. Made throughout of solid figured oak, finished in the new nut-brown fumed or golden gloss. Top is 42 inches long, 26 inches wide. Center drawer has square wood Mission knobs. Book shelves have artistic cut-out panels at each end. Legs are secured with bolts, which means not only that it will never become shaky, but that it can be shipped in knocked-down form. Crated weight, 80 lbs. Central Indiana shipment. We particularly recommend the fumed finish as it will not mar or show scratches if given ordinary care and usage.

943041A Fumed oak.....\$8.55  
943041B Golden oak.....8.50

**\$850**

## A Most Massive Model

Here is an extra high quality table with the maximum of book and magazine space in accessible, yet compact form. The top and most prominent parts are made of solid quarter-sawed oak of select figure. Finished either a durable light golden or the new nut brown fumed. We particularly recommend the latter finish.

The top measures 42 inches long and 26 inches wide. Roomy center drawer has wood knobs of mission design to match the corner ornaments on the top. The four shelves give you nearly eight feet of most convenient book space.

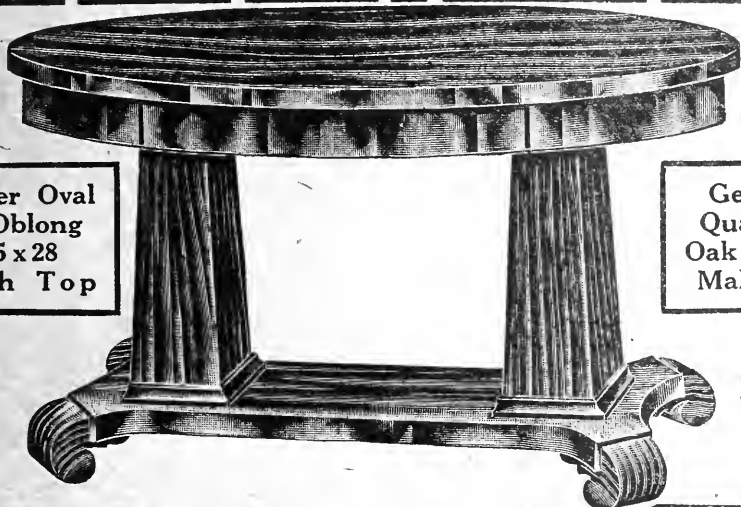

Built to give years of service and thorough satisfaction. Shipped from Chicago crated and set up ready for use. Top is framed in all around for greatest strength. Magazine shelf in center. A splendid table and a big bargain, too. Shipping weight, 120 lbs.

## TWO ARTISTIC COLONIAL MODELS

**\$18.45**

This newly designed Colonial model table combines the greatest of elegance, durability and utility. Made by a large factory noted for their extra care in building and finishing fine furniture. The pattern is exclusive, very massive and will add refinement to any parlor, library or living room. The top measures 45 by 28 inches and is of genuine quarter-sawn oak or mahogany veneer of special selection.

The finish is a high-hand polish, unless dull rubbed is preferred and specified. Colonial platform base supported by graceful scroll feet. The massive pillars are beautifully proportioned,—much handsomer than any illustration can depict. Special bolted construction permits shipping in compact form, saving you much freight and assuring safe arrival. Easily put up by any one. Always rigid and firm. Roomy drawer with wood knobs. Shipped from Chicago. Weight about 140 lbs.

# BARGAINS IN BETTER BOOKCASES

## Four Specials at \$14.85 to \$25.90

The massive combination writing desk and book case shown at the right is the finest one we offer. When you see its many advantages over the less expensive ones below, you will readily realize that it is well worth the few additional dollars it costs.

The swell front of the book case compartment matches the three swell front drawers, and makes it most attractive. Bent glass door. Five book shelves, four of which are adjustable to any desired height. The drawers have good locks and artistic brass pulls.

The desk compartment has a practical interior arranged for envelopes, note paper, drawer for pens, stamps, pencils, etc. The drop leaf is roomy, rigid when open, and ornamented on front with heavy wood carvings. These harmonize with the extra heavy, distinctive and clean-cut carvings which ornament the top. Notice the unique Rococo design. Heavy claw feet and good casters. The artistic pattern mirror is of beveled French plate and measures 12 by 10 inches.

Two finishes—golden gloss finish on solid oak or birch mahogany. The oak has the entire front of genuine quarter-sawn oak. Width, 39 inches; height, 76 inches. Shipped from Central Indiana. Carefully crated and safe arrival assured. Weight, 160 lbs.

## Extra Value

**\$15.85**

Every home should have a hall rack. This one is exceptionally well made of choice genuine quarter-sawn oak, and can be furnished in a rich golden flow finish or in the nut-brown fumed. We particularly recommend the fumed as it is handsome and scarcely shows usage or wear at all. The mirror is of large size, 22 by 11 inches and is of clear beveled French plate glass. The four double coat and hat hooks are heavily cast and very artistic.

The box seat has a hinged cover and spacious compartment below for overshoes, brushes, etc. Height 79 inches, width 33 inches. Shipping weight about 100 lbs. Shipped from Chicago factory, carefully crated to assure safe arrival. Heavy cornice top sets off the simple colonial design most pleasingly. Shapely front legs and arms.

Solid Oak

There are thousands of differently designed dining tables manufactured. Many new patterns have only a short life, and then they become out of style and are no longer made. Because a dining table is not bought every year or two, we recommend the purchase of a pattern which will not become out-of-date, no matter how long you use it.

One of the most attractive and consequently always popular style is the claw foot. This one is considerably more massive than the tables shown above, the round pedestal being eight inches thick and artistically turned at the center and base. The legs are rigid and of large, smoothly carved and splendidly proportioned claw feet.

Made in all lengths, with round top 42 or 45 inches across. Steam bent box rim. Best non-binding maple slides. Good casters. The finish is a hard, lustrous and durable golden gloss. Only seasoned solid oak is used in its building. Improved bolted construction is of many advantages to you. First of all it means shipping with the top off. This means not only a guarantee of safe arrival, but a great reduction in freight charges. Anybody can put it together securely and easily. Every year or so the nuts can be tightened a little, and it will be as rigid as new. Drop legs on all 8 and 10 ft. lengths. Shipping weight, 110 to 160 lbs.

Pittsburgh, Pa.

W. & H. WALKER

We consider this the best proportioned, most handsome table ever offered within many dollars of our prices. The massive, octagonal pedestal measures eight inches across and has an eight-sided collar at the base to harmonize. Extra heavy legs and feet of a new, pleasing and distinctive design. Rigidly secured for permanent firmness. Made by a prominent factory in a manner which assures the greatest of service and utility. Good slides and casters.

The simple lines bring out the great beauty of the grain and pleasing finish. Furnished in an extra high quality light golden or the new nut brown fumed finish. We particularly recommend the latter on account of its not showing scratches, etc. The pedestal is non-dividing in all lengths. Eight and ten-foot tables have concealed legs under the top. When extended these assure safety and firmness. As leaves do not show when in use, they are not matched or as highly finished as the tops.

Shipped with tops removed to assure safe arrival and reduce freight charges to you. Anyone can put it together with no effort or trouble, as they have an improved bolted construction. This also assures perfect rigidity in years to come. Superior slides and casters. High-grade top lock. Made of solid oak, with beautifully matched genuine quarter-sawn oak top and box rim. Weights, 125 to 185 lbs. Specify which finish you want.

# FOUR BIG BARGAINS IN BETTER QUALITY TABLES

Solid  
Oak

45-inch  
Plank Top

**\$17.95**

## A Most Desirable Model

This Colonial model will always be most popular. Made of solid oak with continuous platform, scroll feet and round pedestal eight inches thick. Top is of new plank style, showing a double thick edge, making it very massive in appearance. Top measures 45 inches across and is of figured plain oak with leaves and rim to match.

All pedestals are of non-dividing type, assuring the greatest of rigidity. Eight- and ten-foot lengths are equipped with the new style drop legs, which fold out of sight under the top when table is not extended. Automatically lock when down, making the top secure and solid when extended.

Finished a rich golden gloss, or the new nut-brown fumed. Easy running slides and good casters. Improved bolted construction enables it to be shipped with the top removed, assuring lowest freight rates and safe arrival. Shipped from factory near Pittsburgh. Weight, 180 lbs.

## The Newest Design

This "William and Mary" Period model shows you the trend of the times in dining tables. Sturdily built on most gracefully shaped lines from selected figured oak. We particularly recommend this pattern in the new, most serviceable, nut brown fumed finish, which looks like new at all times. It can, however, also be furnished in a high-grade gloss golden varnish finish.

The top is furnished in either 45 or 48-inch diameter. Equipped with superior slides and good casters. Best bolted construction insures permanent rigidity. Legs are turned from built-up stock and have large ball feet as shown. They are set back from the rim so as to afford plenty of knee space for the users. Artistic interlocking base acts as an ornament and reinforces the legs.

Shipped carefully crated from factory near Pittsburgh. Weight, 105 to 165 lbs. Be sure to state finish preferred.

## Massive Magnificence

Wouldn't your dining room be fine with such a beautiful table, of the very latest style, in it?

The matched genuine quartered-sawed oak top can be furnished in 48 or 54-inch size, and either the new nut brown fumed or polished golden finish. The fumed finish is strongly recommended, on account of its being both up-to-date and wonderfully serviceable.

The large platform base is very thick and is elevated from the floor by the massive Jacobean ball feet. The 9-inch pillar has eight sides and shapely collar at the bottom. The four pilasters are of William and Mary period design, smoothly and gracefully turned from heavy solid oak stock. Highest grade slides and top lock.

One of the best values we offer, and sure to please you immensely. Shipped from factory near Pittsburgh. Weights, 150 to 230 lbs.

Be sure to state finish preferred.

# EXTRA LARGE AND MERITORIOUS PLANK TOP DESIGNS

Extra  
Large  
★  
Save  
Money

THREE  
SIZES

★  
\$26<sup>35</sup>

No one piece of furniture shows so prominently as the dining-room table, as it is always used in the center of the room. There is lots of satisfaction in having a handsome table with plenty of elbow room for everyone, regardless of how many are being served.

Our buyer had these very thoughts in his mind at the time he secured this lot of high grade tables at such bargain prices and it is for these reasons we urge you to purchase as large a table as your room will accommodate.

You will do well to order one of the tables on this page, as we consider them the best proportioned, most handsome tables ever offered within many dollars of our prices. The massive curving octagonal-shaped pedestal and platform base are of solid quarter-sawed oak. Double thick edge or plank top of built-up stock.

QUARTER  
SAWED OAK.

It shows an extra choice quarter-sawed grain on top, rim and band edge. Finish is a high polish golden or the new wax nut brown fumed, as preferred. Non-dividing, 10-inch, eight-sided pedestal. Improved bolted construction, superior slides and casters. High-grade top lock. Weights, 150 to 255 pounds.

All the tables on this page are shipped from the Indiana factory with tops removed to assure safe arrival and reduce freight charges to you. Anyone can put them together with no effort or trouble, as they have an improved bolted construction. This also assures perfect rigidity in years to come. Eight and ten-foot pedestal tables have concealed legs under the top. When extended these assure safety and firmness. As leaves do not show when in use, they are not matched or as highly finished as the tops.

These prices include the Double Thick Edge Plank Top, as shown. State whether golden polished or nut brown wax finish is wanted. Be sure to order as large a size as your room will permit.

LARGE

★  
Very  
Fine

SALE  
PRICE

\$27<sup>85</sup>

Because it is one of the finest designs ever conceived, we believe every dining-table factory in America makes a table of this type.

Its extreme popularity is due to the simple elegance of design and absence of all straight lines or sharp corners. This makes it not only most easily kept clean and free from dust, but also brings out the rich contrasting figured quarter-sawed oak grain to the best possible advantage. The manufacturers of both tables on this page are noted for their skill and care in matching and selecting their stock. This is almost as important as the superior construction, which means continuous service and satisfaction for years to come.

The new style plank top adds much to the massive appearance, showing an edge of double thickness, and with the same elegant figure as the top.

Quarter Sawed Oak

The platform base is both strong and generously proportioned, ending in shapely scroll feet. Some idea of the massiveness can be had from the size of the pedestal, which is ten inches in diameter, not counting the attractive collar at the bottom. The top is undercoated to prevent warping and is fitted with a high-grade lock which holds the two halves snugly together. Fitted with heavy non-binding slides. Highly hand polished golden or nut brown wax fumed finish. Be sure to specify finish when ordering.

The pedestal is non-dividing in all lengths. 8 and 10 ft. lengths are fitted with new style drop legs, which fold up and are concealed under the top when not extended. Best bolted construction. Excellent casters. Shipped carefully crated and safe arrival assured. Weights, 190 to 260 pounds.

Be sure to state whether you want golden polished or nut brown wax fumed finish. The following prices include the plank top.

# Note the Saving on this Massive Matched Suite

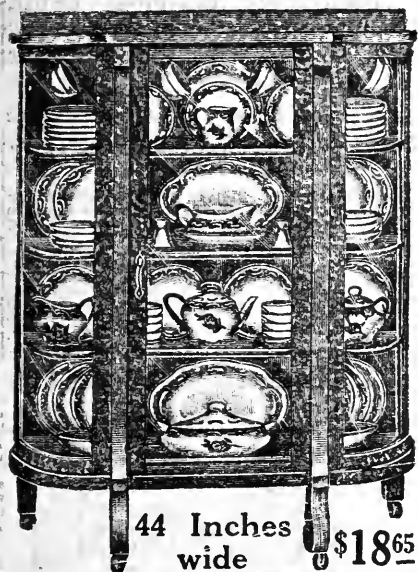

A Big Special for those who appreciate unusual beauty and seldom find it at low prices.

Sold complete or separately.

This extra large, massive colonial china cabinet matches in every detail of design and finish with the buffet and table. Positively the lowest price obtainable on such a well made, perfectly proportioned, up-to-date china closet of such unusual roominess. Made of seasoned hardwood, finished to strikingly resemble the choicest matched quarter-sawn oak. The high grade lustrous golden gloss varnish makes it very pleasing to the eye. Top is curved to harmonize with the contour of the front.

At either side of the door are full length colonial design posts ending in scroll feet. The shelves are adjustable in height and grooved at the back for plates. The ends are fitted with clear, double strength bent glass. Good lock and casters. Height 60 inches, width 44 inches. Shipping weight, 180 pounds. Shipped carefully crated from Southern Indiana and safe arrival assured.

\$18<sup>85</sup>

This platform Dining Table is of new and splendidly proportioned design. Made of the same stock and finished to match the china closet. Shapely hexagonal pedestal 10 inches thick, not including the collar at the bottom. Heavy platform with scroll feet. Top is 45 inches in diameter and fitted with easy-running slides. Improved bolted construction insures permanent rigidity and enables it to be shipped with top removed. Eight and ten-foot lengths are equipped with drop legs which fold up under the top when not extended and lock both up and down. These do away with the unsightly divided pedestal, and assure the greatest rigidity when extended. Easily worth 50% more than these prices. Weights 135 to 185 lbs. Golden finish only.

# Unusually Artistic Display China Cabinets

**\$24<sup>85</sup>**

This exclusively designed china cabinet is now offered to you at far below the prices commonly asked on similar styles and qualities.

*We urge you to buy now before we are compelled to advance our price.*

Notice particularly the design of this handsome china closet, which is built to show off your dishes to the best possible advantage. It is unusually massive and roomy, containing five shelves, four of which are removable and grooved for dishes. It matches in every detail of finish and construction with No. 943226 Buffet on page 41. The quarter-sawn oak is of special selection, finished in a smooth golden varnish or in the new nut, brown fumed finish. The shapely Colonial ornaments at each side of the door harmonize with the scroll feet. The top is shaped to match the contour of the front. The door is extra wide and fitted with clear bent glass, as are also the two ends.

Total height, 61 in.; width, 36 in.; depth, 16 in. Guaranteed to compare favorably in every respect with the best usually procurable at retail for \$50.00. Shipped carefully crated from Central Indiana factory and safe arrival assured. Wt., about 165 lbs.

# Colonial Buffets of Very Unusual Merit

## 42 or 48 Inch Length

Here is a chance to get a massive genuine quarter-sawed oak buffet at less than most dealers would ask you for its equal in size, not to mention appearance, in imitation quartered oak. Made in two practical sizes. Both have double thick plank tops, beautifully hand-polished golden. Made by a factory noted for its workmanship. Retail value \$27.50 to \$32.50. 30 by 8 inch bevelled French plate mirror.

Two projecting upper drawers have shaped fronts, good locks, wood knobs, and one is lined for silver. Full-length linen drawer and double paneled door compartment below. Colonial scroll strip between doors harmonizes with the scroll feet, posts and mirror standards. Plank top 42 inches long. Our biggest buffet bargains. Southern Ohio freight. Weight, 175 pounds.

**943233** Golden oak or fumed..... **\$19.75**

The larger size is unusually massive, plank top measuring 48 by 20 inches. Bevelled plate mirror 34 by 8 inches. Drawers finished inside. Weight, 220 lbs. Beautifully figured quartered oak.

**943234** Golden or fumed..... **\$24.85**

**\$19<sup>75</sup> and \$24<sup>85</sup>**

## Massive New Design

If you want a buffet combining the most possible beauty of design with useful arrangement this should suit you perfectly. Very heavily and sturdily built of handsomely figured, flaky-grained quarter-sawed oak. Finished a lustrous, durable golden or the new nut brown fumed, which always looks like new.

The top is of plank style, showing double thick edges and measures 48 by 22 inches. The base contains three center drawers with deeply swelled fronts. The upper one is lined

**48 INCHES LONG \$32<sup>50</sup>**

for silver. The large bottom drawer carries out the swell in the center. All are carefully fitted by hand so as to slide easily, and have wood knobs, brass escutcheons and good locks. Spacious linen compartments have beautifully veneered doors and are equipped with locks. Ext a heavy full swell Colonial posts and scroll feet.

The canopy top has a plank or double thick display shelf with heavy supports and a bevelled French plate mirror 12 inches high and 36 inches long. Weight, 220 lbs. Shipped from factory southeast of Pittsburgh.

**943235** Either finish..... **\$32.50**

**52 INCH PLANK TOP \$29<sup>65</sup>**

This is one of our leaders. Think of getting such a large size buffet of exclusive, up-to-date design at such a wonderfully low bargain price.

There is no excuse for anyone not having useful, practical, necessary and good appearing house furnishings.

Look at the illustration carefully and see the graceful Colonial curves embodied throughout. We consider it a masterpiece of design. The drawer and cupboard arrangement is most practical, just right for your particular needs. All four drawers are finished inside, one is lined or silverware. The 52 by 22-inch top is of double thick or plank type. The bevelled plate mirror is 40 inches long and 10 inches high.

The quarter-sawed oak used in its construction is carefully chosen for figure and splendidly matched. Shapely standards at side of mirror match the newly designed posts. Double pilasters between doors. Order this if you want a large, artistic buffet at a very low price. Shipped from factory near Pittsburgh. Weight, about 200 lbs. Specify whether you wish the golden gloss or new nut brown fumed finish.

**943238** Either finish..... **\$29.65**

# Biggest Buffet Bargains Ever Known

**\$16<sup>65</sup>**

Here is a chance to add an attractive, heavily designed and substantially constructed buffet of good size to your dining-room equipment at a remarkably low figure. The design is true Colonial, very much in vogue at the present time. The frame is made throughout of seasoned hardwood to which is applied a graining resembling the choicest genuine quarter-sawed oak. The rich golden gloss varnish generously used over this makes it look like a \$30.00 buffet.

Made by a factory whose quality is known throughout America. Top is of double thick plank type and measures 42 by 21 inches. Plate rail above mirror is also extra heavy and is supported by artistic scroll standards. The mirror is of bevelled French plate glass, 28 inches long and 10 inches high.

The two top drawers are of extending type, have wood knobs, good locks, and one is lined for silver. Full length drawer, two center drawers, and double cupboards below. Shipped from Southern Indiana. Weight, 155 lbs.

943237

Sale price..... **\$17.90**

## A New Colonial Plank Top Design

A buffet is an every day necessity. No home should be without one. In addition to improving the appearance of any dining room wonderfully they serve as convenient storage places for silver, table pads, fancy dishes, and many other articles.

Although offered at a low figure, this buffet is up-to-date in design, spacious, practically arranged and excellently constructed to withstand continuous service for a great many years. The top is of the new, heavy appearing double thick edge or plank type, and measures 42 inches long and 20 inches wide. The three drawers are of dovetailed construction, and have good locks, brass escutcheons and wood knobs. One of the upper drawers is lined for silver. The full-length linen drawer is extra deep and commodious. Roomy storage compartment at the bottom has two paneled doors with Colonial scroll dividing strip which matches correctly with the shapely posts and scroll feet.

The top has a canopy shelf of plank effect and a clear bevelled French plate mirror 34 inches long and eight inches high. Neat pillars at the sides. Made throughout of seasoned hardwood, finished to strikingly resemble select flaky grained quarter-sawed oak. Much more attractive in appearance than most solid oak buffets selling for less than \$25.00. The golden varnish used is of extra quality, almost moisture and water proof. Shipped carefully crated from factory in Southern Indiana. Wt., 140 lbs. **\$16.65**

## Five Drawers and Two Cupboards

**\$17<sup>90</sup>**

Plank  
Top  
Design

## Extra Massive and Useful 48 Inches Long—Five Drawers

Here is a real worth that speaks for itself. Anyone can readily see the very practical arrangement of the five drawers in this massive Colonial buffet. Its extra quality and the exceptionally low price make it a double bargain. Notice the unusually large sized plank or double thick top, measuring 48 inches long and 23 inches front to back.

Bevelled French plate mirror 40 inches long and 10 inches high. Heavy plate shelf above mirror supported by graceful scroll standards at either side. Fronts of the four upper drawers project beyond the double door linen compartment in the center. Two of these drawers are of double depth, the middle two having rounded fronts, one being lined for silverware. Drawers have wood knobs and good locks. Full length drawer at bottom.

The mirror standards, front posts and scroll feet are artistically shaped and cut from extra heavy stock to carry out the massive Colonial outlines. A scroll strip between the doors enhances the appearance.

Finished a lustrous golden quarter-sawed effect on seasoned hardwood. Built by a most reputable factory with exceeding care in order to give service and look well for years. Shipped from Southern Indiana. Weight, about 200 lbs.

# Exclusive Designs in Elegant Buffets

*If you are a lover of beautiful furniture, and appreciate perfect proportions, colonial simplicity, the beauty of choice quartered-sawed oak and A-No. 1 construction, order this on our recommendation*

The fact of the matter is that the makers specialize in dining room suites selling for hundreds of dollars, and these pieces came through the same machines and are handled by the same experts and finished in the same grade of varnish as their most expensive designs

Notice the design of this Buffet with special care. The swell fronts of the upper drawers, shaped top rail and extra deeply countersunk door panels combine in giving it an effect which makes it distinctively different from the ordinary type, yet not freakish. The shapely scroll standards supporting shelf above the mirror harmonize with the ornamentation of the front posts and scroll feet. The top is of the new double thick plank type and measures 44 inches long and 21 inches front to back. The shelf above the mirror is also extra heavy to match. The mirror is of beveled French plate, 38 inches long and 8 inches high. Roomy, full-length bottom drawer for linen. The center compartment is of full length and fitted with two doors. Upper right-hand drawer is plush lined for silverware. The cabinet work throughout

**CHOICE QUARTERED  
OAK THROUGHOUT \$28<sup>85</sup>**

shows very unusual care. Wood knobs, good locks and casters. Height, 54 inches. Weight, 185 lbs. Shipped from Central Indiana. We want every purchaser to compare this buffet with those regularly retailed for \$35.00 to \$38.00.

# Most Useful Models at Very Low Prices

**SIFTER FLOUR BIN  
METAL BREAD BOX \$12<sup>95</sup>  
White Enamelled Cupboard**

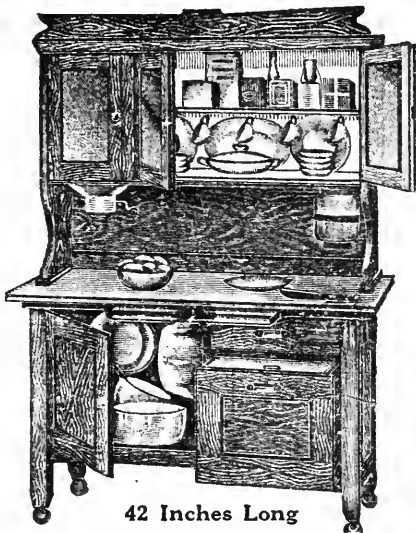

Here's a cabinet which contains most of the valuable features usually only to be had in models retailing for \$25.00 or more. It is made throughout of solid figured oak, finished a rich, clear light golden gloss.

The **Canopy Top** has a large flour bin with Florentine glass front and metal sifter at the bottom. Filled from the top, and holds 50 pounds of flour. Cupboard doors are also fitted with Florentine glass and good hardware. The interior is fitted with a full-length eating shelf and finished with three coats of sanitary, odorless, hard white porcelain enamel of high lustre. Below this is a sanitary glass sugar in set in a swinging metal ring. This has a dust-proof cap on top and a self-feeding valve on the bottom which enables you to get out any desired quantity of sugar instantly. Artistic back shelf on top.

The **Base** has a smoothly finished work table top of seasoned white ashwood, size 42 by 24 inches. Reversible bread board of the same material. Below is a roomy drawer for silver, linens or utensils. Below this is a removable all-metal bread and cake box with metal cover. Excellent hinges, drawer pulls, locks and casters. Utility upboard for pots, pans and other miscellaneous articles. Substantial legs high enough to permit sweeping below with ease.

While not as large or deep as our higher-priced cabinets, it meets many requirements perfectly. Compact, yet practically arranged in every detail. Strongly constructed. Shipped carefully crated from Illinois factory, and safe arrival assured. Height, 68 inches. Weight, 65 pounds.

**A Cabinet of  
Very Unusual  
Utility**

If you have any opportunity of doing so, see what you will have to pay in retail stores for a cabinet of equal construction, size and convenience. The large saving will surely be a pleasant surprise to you.

Made by a factory who make nothing but good kitchen cabinets. The doors fit perfectly, the drawers and bins fit snugly and run smoothly. Made throughout of selected figured Northern oak. The finish is a special light-golden varnish, selected for its rich appearance and imperviousness to steam, heat and moisture so common to all kitchens. Height, 72 inches; width, 36 inches; depth, front to back, 26 inches.

The **upper part or canopy** is particularly roomy and contains two large upboards, with two shelves and has Sicilian art-glass doors. All doors have rounded or lip edges, which keep out the dust. Below the middle or spice upboard are two small drawers for miscellaneous articles. Below the cupboard section is a full-width storage shelf.

The **base** is of generous size, unfinished whitewood table top measuring 40 by 26 inches. Contains a reversible kneading board, extra large silver and linen drawer above the cupboard, and a big roomy, tilting flour bin. The utility cupboard is also extra commodious. The door is equipped with pan and cover rack. Built-up, non-warping end panels.

Order this cabinet if it meets your requirements. You can't help but be pleased with its thorough construction and absolute dependability. Shipped from Michigan. Weight, 205 lbs.

Designed For the American  
Woman Who Appreciates  
Unusual Utility and  
Supreme Quality

If you don't know what wonderful strides have been made in Kitchen Cabinet manufacture within the last year read this page with extra care.

Better yet, go to the best furniture store in your locality and see the quality of those retailing for \$37.50 to \$48.

Then send your order for this with the understanding that we will take it back and refund your entire remittance and all freight charges if it isn't equal or better in workmanship a construction than any you see, regardless of price.

*That's Some Guarantee isn't it? But then it's So!*  
**Cabinet!**

**Our Exceedingly Low Prices puts it within the reach of everyone.**

**When Closed Everything Is Out of Sight and Dust, Yet Instantly Accessible**

**This Represents the Finest of Workmanship, Most Lasting Construction, Most Complete and Compact Arrangement and Many New 1918 Ideas**

**The Canopy Top** is enameled throughout, with three coats of the finest hard, snowy white porcelain enamel. The large cupboard for dishes and package goods has a dividing shelf and two doors. These are fitted with a cook book holder, time chart showing time required for preparing various foods, and a card index for favorite recipes. A memorandum pad and pencil holder is also supplied. Extreme top has rounded corners. The large tilting flour bin is of non-rusting metal, and is fitted with a detachable sifter attachment and cap. Entire bin can be lifted out for filling or cleaning. A most valuable feature is the roll-up curtain front, instantly opened or closed. This compartment is white enameled and fitted with a sanitary glass sugar bin in a swinging metal ring. This is fitted at the top with a metal lift-off cap and at the bottom with a valve which permits you to get out any desired amount of

sugar instantly. This compartment also has a rack fitted with six press-cut glass spice jars, two with sifter tops. Also companion glass canisters for tea and coffee, fitted with metal covers.

Compartment below flour bin has enameled interior and swinging door fitted with a rack for extra bottles. All enameled compartments have corner blocks, which do away entirely with dust catching.

**The Base** is equipped with a sliding top, which pulls forward and locks in position. This increases your work space about one third. You have your choice of a genuine white porcelain top, which is our ideal of absolute perfection, or an aluminum top, also very good, but less expensive. Top measures 42 by 26 inches.

The partitioned drawers are especially useful. The large drawer above the cupboard has five compartments of various sizes for cutlery, utensils, twine, etc. The upper right hand drawer is designed for dish cloths and linens. The next drawer is fitted with

a portable, sliding knife and fork tray which may be lifted out. The bottom drawer is for bread and cake, all metal and fitted with a dust a vermin proof sliding top, also sliding shelf inside. Can be lifted out for cleaning, but will not drop on the floor when extended to full length. Extra large and deep cupboard at left is fitted with sliding retinned wire shelves the door with a rolling pin holder and pan or cover rack. Nicked towel rod at side. Legs have rounded corners, tapering feet, and ball bearing metal casters.

**The Construction** throughout very superior. All drawers have a breakable, nonwarping bottoms. Bottom, ends, door panels, and entire back are of the same material, absolutely dust proof. All doors and draw fronts are danged for the same reason. The finish is a light golden satin water proof varnish.

Remember, we want this company with the very best. Shipped from Central Indiana. Weight, 220 pounds

mahogany finished upper panels. Tilt-  
ing flour bin is non-rusting, fitted with  
detachable sifter. Roomy compartment  
below has swinging door with rack for  
cook book or extract bottles and hooks  
for various utensils. Large, all-glass  
sugar jar, with self-feeding valve. Eight  
large pressed glass jars for coffee, tea and  
spices on rack.

The Base is equipped with a sliding  
aluminum or genuine porcelain top, 40

Pittsburgh, Pa.

by 27 inches. Large cupboard for pots  
and pans, fitted with a sliding retinned  
wire shelf and non-warping breadboard.  
The door has a metal pan or cover rack  
and rolling-pin holder. At the right are  
three drawers. The bottom one (for  
bread and cake) of non-rusting metal  
with sliding top can be removed, but  
will not drop out when pulled forward.  
Gracefully tapered feet, heavy legs, ball-  
bearing casters. Nickel-plated towel  
rack. It is built to be almost everlasting.  
The drawer bottoms, main bottom, door  
panels, end panels and entire back are  
of built-up stock, absolutely dust-proof,

non-warping and unbreakable. The  
finish is a very superior golden water-  
proof varnish.

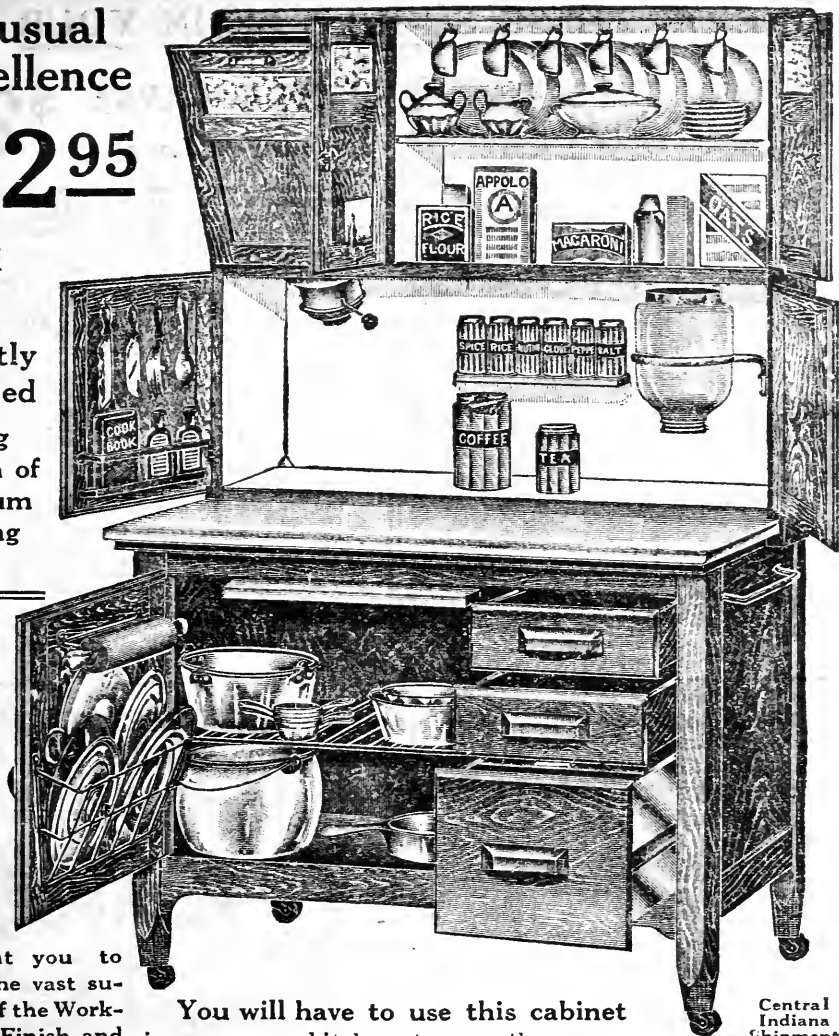

Order this cabinet at our risk, and  
if you don't find it better in construction,  
workmanship and finish than similar  
cabinets retailing for \$32.50, it may be  
returned at our expense. Total height,  
70 inches. Shipping weight, about 250  
lbs.

# ONE OF THESE SHOULD BE IN YOUR HOME

**EXTRA LARGE \$21.65**  
(Four Feet Long)

If you want a cabinet which will more than answer all your requirements, order this. It will give you room for more kitchen articles than any other cabinet we have ever seen. Then you are sure to like its looks and the way it is arranged, with a spacious handy compartment for everything.

The upper part has more shelf room than most cupboards besides two convenient tilting, roll-front sugar and meal bins. Between these are two ample drawers for spices and smaller articles, also a shelf for glass jars or tins in use. The cupboard doors are of Venetian art glass. You will realize the size of this cabinet when we say it is nearly a foot higher than the average person's head—total height being 76 inches. You should have more than enough room for all your package goods, dishes, etc. Articles shown are not furnished.

The base has a work top from six to eight inches longer than on most cabinets. It is of seasoned, selected whitewood, and measures 43 by 26 inches. This can be furnished covered with nickeloid if wanted, at a slightly higher price. The base contains a large tilting flour bin; three silver, linen and utensil drawers; a metal bread and cake box with hinged cover. Spacious cupboard for pots and kettles has a sliding center shelf and a cover rack on the door. Large whitewood doughboard slides in below the top. We particularly recommend the non-rusting nickeloid top on account of its utility and perfect cleanliness.

You will be repaid many times over with this cabinet in the labor, time, and steps it saves. No up-to-date housekeeper can afford to be without a high-grade cabinet at such a bargain price. The entire front is of solid figured oak, ends of hardwood. Finished a superior water-proof golden. Made by a factory noted throughout America for their superior modern equipment. Shipping weight, about 240 lbs. Shipped carefully crated from Southern Indiana.

## Roll Curtain Front and Sliding Nickeloid Top \$19.75 With White Enameled Canopy

Every progressive, efficient American woman will readily realize the tremendous saving which will be self-evident after reading the description below.

The upper part has a tilting, front-filling flour bin which will hold 50 pounds of flour. The device below enables you to instantly get any desired amount of flour sifted right into the utensil you wish. The flour bin can be entirely lifted out for cleaning. At the right is a double door cabinet with shelves for dishes and package goods. Below is a roomy compartment with removable all-glass sugar bin set in a swinging ring. This has an agitator inside for stirring up the sugar and self-feeding valve below.

Roll curtain front on this compartment is out of the way at all times. Lifts up like a roll-top desk. The flour bin front and cupboard doors have flanged edges to make them dust proof. The canopy is 39 inches high and 11½ inches front to back. White porcelain enamel lined throughout as shown.

The base is fitted with a sliding nickeloid top 36 in. long and 25 in. front to back. This pulls forward when desired, increasing your working space nearly 40 per cent. Just below is a reversible, smooth whitewood dough board. Two upper right-hand drawers for silverware, cutlery and linen. The bottom drawer is of non-rusting metal with sliding cover. The large cupboard in the base is 24 inches deep. Fitted with a sliding, retinned wire shelf. Door has a roomy pan rack.

The most special feature of this cabinet is its extreme rigidity, due to special patented construction. This materially reduces transportation charges and weight of crating, enabling it to be shipped in compact form. Anyone can put it together in about twenty minutes' time, full instructions, hardware, etc., being furnished. Shipped from Central Indiana. Weight, 170 lbs. Will be found most convenient, roomy, practical and constructed to give splendid service. The entire front is of figured solid oak, the ends of hardwood. Finished with a high-grade water-proof golden varnish. Total height, 71 inches.

943337 Complete, as described, but without articles shown.

# The Machine That Concentrates Your Effort and Almost Works Itself

A wonderful improvement, as the enormous leverage acquired through the peculiar setting of the handle and its connecting parts, permits an easy starting of the mechanism under a full load and the stored-up energy of the rapidly revolving fly-wheel insures an even and prolonged motion of it with scarcely any labor.

A combined Pump Handle and Upright Lever washer, so arranged that the change from one position to the other can be made instantly, operated sitting down or standing up.

The "Laundress" will do all your work. Will save its cost many times over in a short time, as it positively will wash your clothes easier, quicker, cleaner, and without tearing them, than any other machine now on the market.

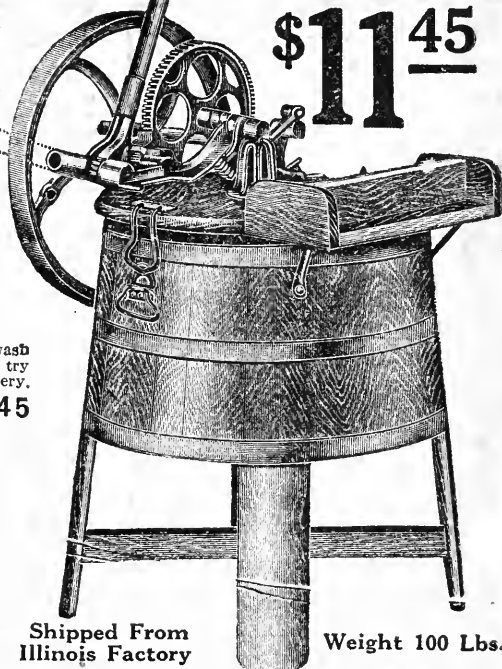

The Entire Mechanism is substantially and durably made. All parts are properly fitted, resulting in a smooth running machine. Made from the best Louisiana Red Cross Cypress, the wood that grows in water and which is not affected by acids or hot or cold liquids. It is neither taint nor discolor the contents. It holds its shape and is practically everlasting and not proof. Each stave is tongued and grooved and held in place by three heavy hoops, which are driven on by means of special machinery, exerting a pressure of five tons. This insures tight joints and hoops at all times. The legs are extended staves and braced by a cross. The lid is of double thickness and fits tight, preventing the escape of steam and odors. The inner sides and bottom of the tub are deeply corrugated, so as to afford the largest rubbing surface possible. Rigid wringer attachment on side will hold any standard size wringer.

The Tub is finished the natural color of the wood, the hoops and the entire mechanism in gold bronze. Will wash about twenty pieces at one time. Order at our risk, and try one a month. You will never go back to the old weekly slavery.

## The Helper \$8.35

Encased Roller  
Bearing Gearing

Let  
One  
Help  
You  
Every  
Week

Here is a Washing Machine which will do the work better and last much longer than any selling for more money.

Substantially, carefully built with seamless tub of Louisiana red cypress, finished with a high-grade natural varnish. Rigidly supported by four stout legs resting in metal sockets. A very small amount of effort is required to agitate the clothes. The covered bearing eliminates all danger to fingers or children. Telescopic dasher post. Extra large lid. Fourteen other special features. Iron parts which come in contact with water are electro-galvanized to prevent rusting. A frame for attaching wringer is securely mounted at the side. Weight, 80 lbs. Shipped promptly from factory near Pittsburgh.

\$3902 Price, complete as shown and described..... \$8.35  
Pittsburgh, Pa.

## The Symplex Labor and Clothes Saver

Here's your chance to get a good machine cheap. No excuse for breaking your back and spoiling your hands any more.

The Tub is made of Louisiana Red Cypress, the best wood known for washing machine construction. Finished in the natural wood with high-grade varnish. The sides and bottom are deeply corrugated, and thus add to the washing efficiency of the machine. The tub is larger than those of other round lever washers. More clothes can be washed at one time. The dasher is also cypress, and will not warp or split.

The Wringer Attachment is securely fastened to the tub, and will admit the use of a 12-inch roll wringer.

The Gearing. Improved constructions, perfect fitting and heavy castings make the gearing unusually strong and easy to operate. The roller guide to hold the drive gear in position is also a decided improvement and advantage in insuring ease of operation and eliminating wear.

# LOWEST PRICES ON SOLID OAK REFRIGERATORS \$7.95 AND UP

7  
Sizes

No one can afford to be without an up-to-date refrigerator at the astonishingly low prices we are quoting on these improved 1918 models.

They are made by a factory that has made refrigerators for years, and have proven themselves equal in appearance, lasting qualities and utility to most boxes regularly retailing for 50 per cent more.

Made throughout of solid oak, finished in a durable light golden furniture varnish.

Here are some of their up-to-date features:

Provision chamber lined with galvanized iron or a lustrous white enamel. This is not ordinary paint, but is a genuine porcelain finished snowy white enamel, easily kept clean and extremely hard. A special manufacturing process, baking on the different coats at different temperatures, assures lasting satisfaction in use.

The ice is put in at the top, the top door being snugly fitted. The removable shelves are of retained, non-rusting wire as shown below.

Waste or drain pipe is removable through provision chamber.

Special unbreakable drip trap prevents the warm air from entering box, yet lets the water out. Easily removed for cleaning purposes, being inside the provision chamber. This is a great convenience. Self-retaining casters.

Provision doors are neatly paneled, snugly fitted and have solid brass hinges and improved tight-fitting lever lock.

Wire Shelf

Insulated with dead-air spaces and special heat-resisting charcoal sheathing which cannot pack or settle. Economical in the use of ice, being guaranteed equal in this respect to any box regularly retailed for 50 per cent more.

All inside parts are removable so that it can be thoroughly cleaned out. Ice chamber is substantially lined with galvanized iron. The ice rack is also of heavy galvanized iron.

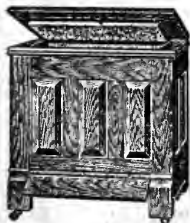

Front strip of base lifts up, permitting the removal of drain pan.

Ice capacity is figured on the largest piece of ice possible to be placed in the ice compartment, with lid closed and ice rack in place. As measurements of ice vary greatly, the maximum can seldom be obtained. For this reason, and because they are more economical of ice and food, we strongly urge the purchase of the larger sizes. All are shipped carefully crated from the centrally located factory. Low freight rates to all points.

Number	Height, Inches	Width, Inches	Depth, Inches	Ice Capacity	Shipping Weight	Galvanized Lining	White Enamel
943376	36	20	13	20 lbs.	80 lbs.	\$ 7.95	\$ 8.95
943377	39	23	15	35 lbs.	100 lbs.	10.50	11.60
943378	40	24	16	50 lbs.	115 lbs.	12.95	14.15
943379	41	26	17	60 lbs.	125 lbs.	15.90	17.65
943380	43	28	17½	75 lbs.	145 lbs.	20.35	22.35
943381	46	31	18	100 lbs.	160 lbs.	22.95	24.95
943382	48	33	20	125 lbs.	190 lbs.	24.90	27.45

All sizes except the smallest have center cold air flue, assuring a perfect circulation of cold, dry air at all times. This means food preservation of unusual excellence.

## SOLID OAK ICE CHESTS \$6.85 TO \$15.65

These Superior Chests are made of the same high grade materials as the refrigerators above, and beautifully finished.

Made in four practical sizes, all opened from the top. Heavily lined inside with galvanized iron and fitted with sliding shelves to separate provisions from the ice.

As they have no means of ventilation, the air is not dry. Therefore they are not so desirable for meats. Not recommended for food having odors. Most useful only with food in jars or other receptacles. Ice capacity as given leaves about one-half the room for provisions. Shipped only from centrally located factory.

Number	Width, Inches	Height, Inches	Depth, Inches	Inside Measurements	Ice Capacity	Shipping Weight	Price

# =LOOK AT THESE REMARKABLE SAVINGS=

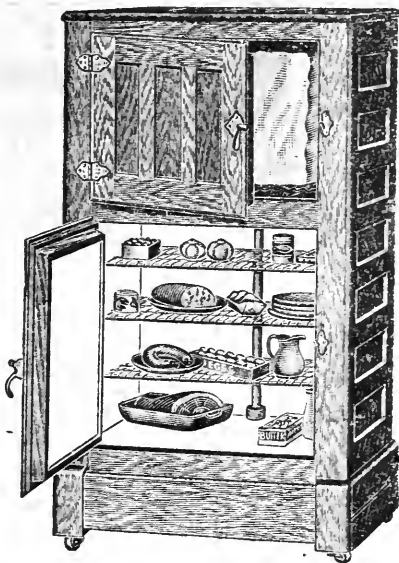

On New Front Icing  
Table Top Models  
OF SOLID OAK **\$14<sup>45</sup><sub>UP</sub>**

These ice-saving refrigerators are built in conformance with natural scientific laws, and automatically insure a perfect system of cold, dry air circulation.

Furnished with either white enameled or galvanized steel provision chambers.

The snowy-white porcelain enamel is of the same high-grade quality as described on the preceding page. The outer case is finished a high-grade golden, handsome enough to match your dining room furniture. The insulation consists of six walls, the interior being dead-air spaces and charcoal sheathing which cannot pack. On all numbers except No. 943387, the doors are fitted with solid brass hinges and lever locks. Roman gold finished. Both doors have double lapped edges to make them fit snugly. Retained wire shelves, galvanized iron ice chamber and ice rack. Perfectly flat table top with rounded corners. Heavy frame around base. Swinging base board. Removable drain board, drain pipe and drip trap inside of provision chamber.

We particularly urge the purchase of the larger sizes, owing to their greater economy of ice. Shipped carefully crated from our Eastern factory, taking low freight rates to all points.

Superior three-door, side icing models with one-piece porcelain, white enameled or galvanized lining.

## = Guaranteed Ice Savers =

These refrigerators rank in every respect with the best ordinarily procurable for 40 per cent more.

Made of solid golden oak, not ash or soft woods which cost less.

They have rounded corners, raised door panels and extra heavy, nicked-plated brass automatic door fasteners. Extra fine insulation with double dead air-spaces, patented sheathing and charcoal quilting, which cannot settle. Welded, galvanized steel ice racks. Electrically welded, retinned, wire mesh shelves, adjustable in height. Removable drain pipe and patented drip cup easily and instantly removed for cleaning. Swinging base board. Smooth table tops.

You will never regret the purchase of one of these up-to-date, strictly high-grade in every detail, refrigerators. They are unqualifiedly guaranteed in every respect. We do not recommend any smaller size than these in side icers. Shipped promptly from centrally located factory. Other features described on opposite page.

943706	20 by 19	28 in.	17 in.	260 lbs.	18.45

Here is an exceptional value in an up-to-date good looking and economical cook stove for wood only. Made in four sizes, enabling you to get one which will exactly suit your requirements. We urge you to buy one of the larger sizes, on account of the additional advantages in size, convenience and particularly in fuel economy.

The design is a brand new one, perfectly plain and smoothly finished. Handsome and easily kept clean.

The main top has four 8-inch covers, except the smallest size which has four 7-inch. Rigid back shelf. All covers are heavy and have double lift-holes.

The firebox is constructed so as to get the maximum benefit from all fuel burned, and to heat the oven speedily. Will not burn coal. No false bottom for ashes to accumulate under, or cause burning out. The fireback is a single extra heavy casting, absolutely guaranteed not to burn out. The same guarantee applies to the fire bottom. The hearth has swinging cover and roomy ash pit. Large swinging front door with sliding draft and poker door.

The oven has doors on both sides and a substantial rack inside. Scientific flue construction makes it a uniform, quick and economical baker. Right-hand side has convenient oven shelf. Clean-out flue is front beneath hearth. Shipped from centrally located foundry.

## A Strictly High Grade Stove for Coal or Wood

*Absolutely the  
very last word in  
advanced stove  
construction*

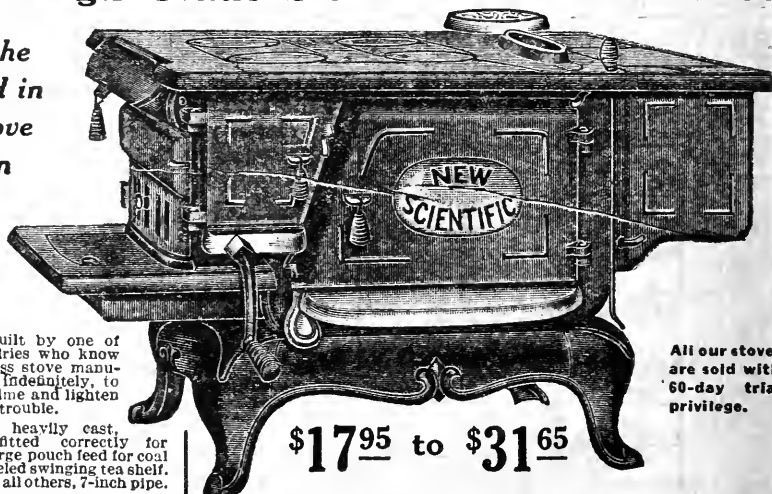

The New Scientific cast-iron cook stove is of the very newest improved 1918 design. Smoothly satin finished all over and elegantly nickel trimmed. The entire body is made of select, tested Southern gray pig iron. Built by one of America's largest foundries who know every detail of high-class stove manufacture. Made to last indefinitely, to save you money, fuel, time and lighten your cooking labors and trouble.

The Main Top is heavily cast, smoothly buffed and fitted correctly for expansion. Front has large pouch feed for coal and broiling door. Nickel plated swinging tea shelf. Smallest size uses 6-inch, all others, 7-inch pipe.

The Fire Box is wide but not deep, consequently gives the greatest heat with the least fuel. Grate is of improved duplex type, instantly shaken or changed from wood to coal. Nickel plated shaker. Fireback is guaranteed for even years. Swinging front draft and poker door. Large, extra deep hearth with swing over. Nickel plated shelf below wood feed door.

The Large Square Oven has doors on both sides, right-hand one having nickel plated automatic top opener. Substantial rack inside. Takes quickly and evenly at top or bottom. Nickel plated name plate and oven shelf.

The Reservoir is of the latest improved

W. & H. WALKER

Pittsburgh, Pa.

# Have You an Up-to-Date Gas Range?

Here's your chance to get a splendid new model 'Gas Range at an exceedingly low price.

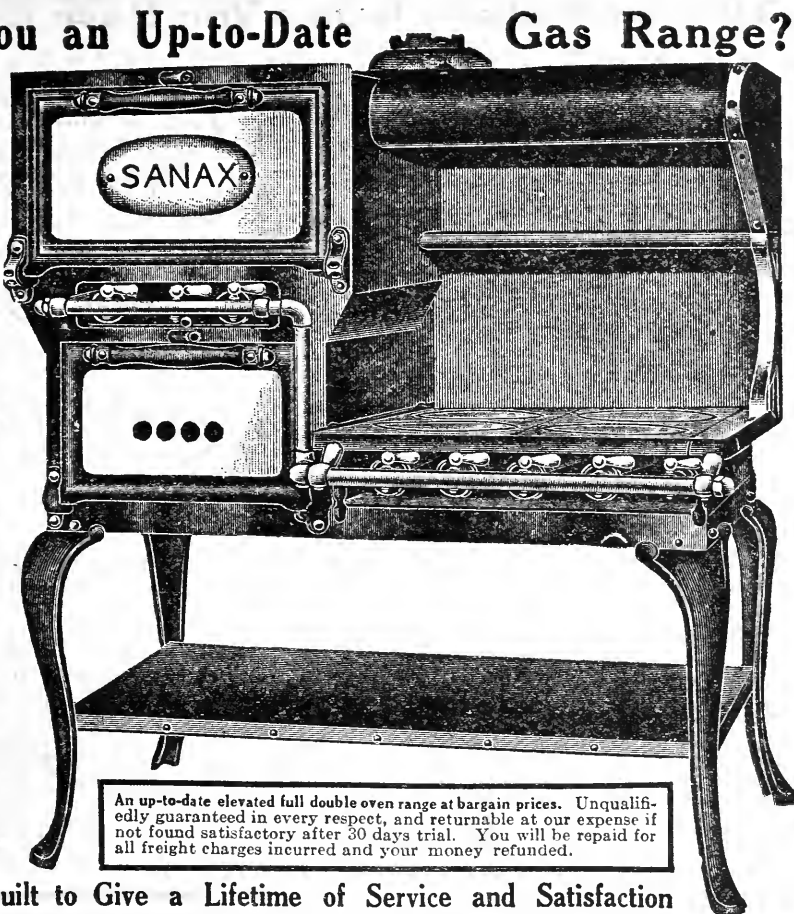

Look at its many new and splendid features.

**Large baking and broiling ovens with white porcelain enameled doors.**

**Useful canopy top and back shelf.**

**Large lower shelf.**

**Ovens on either right hand, or left hand side as shown.**

## How It Is Built to Give a Lifetime of Service and Satisfaction

### Some of its Superior Features

**The Body** is made of selected materials throughout. The castings are from special iron, smoothly buffed and finished a satin gunmetal finish. The steel parts are of special rust-resisting, copper-bearing "Keystone" metal, highly polished. An oiled cloth is all it requires to keep it looking like new. The parts subjected to extreme heat are all lined with heavy sheet asbestos. The body is rivetless.

**The Ovens** are extra large, commodious and heavily lined. The upper or baking oven measures 18 inches wide, 18 inches deep and 12 inches high inside. Few range ovens are so roomy and useful. The lower or broiling oven is also 18 inches deep and 12 inches high. It is 14 inches wide. Both ovens are fitted with welded oven racks. Equipped with new reliable oven lighter and two straight-line removable burners.

Both oven doors are of drop style and when open form an extension shelf level with the oven bottom. Much more useful and convenient than swing doors. Just the right height for the average woman. Broiler door is spring balanced, and perfectly ventilated from the front. Linings are of heavy steel.

**Porcelain Enameled Doors** on both ovens add materially to its appearance. - Large nickel-plated panel on upper door. The broiler-pan is extra deep and white enameled. Fitted with broiler rack. The large drip pan beneath the cooking top is also enameled, sanitary and easily kept clean. All lever valves are adjustable and have genuine porcelain handles. A glance tells if the gas is shut off or on.

**Oven Bottoms.** Ranges made for artificial gas have double oven bottoms, asbestos lined. Those made for natural

gas have two-piece cast-iron bottoms. By making these ranges differently for different kinds of gas, perfect baking results are assured.

**Cooking Top.** The top measures 24 inches wide and 24 inches front to back. Height from floor, 31 inches. Fitted with five removable, one-piece, cored and drilled burners as follows, one double, three single and one simmering burner. Front valves have adjustable mixers. When ordered for artificial gas, two-piece non-cracking open grates are furnished. Natural gas ranges are fitted with a closed top as illustrated, four two-piece covers and two extra round open grates.

**The Canopy** is of great advantage, preventing the escape of gas or other odors into the room. Back prevents splashing grease, etc., on the wall. Fitted at convenient height with full-length warming shelf. Neatly nickel-plated supports. Full size connected canopy flue. Takes four-inch pipe.

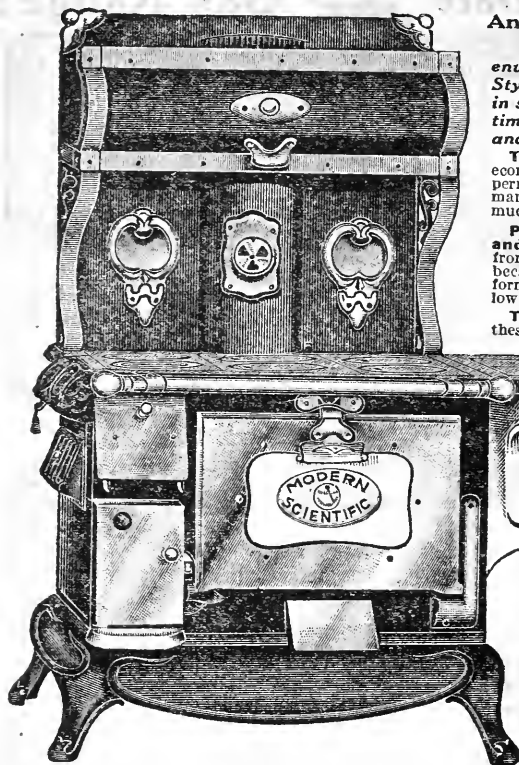

**The Base** has heavy cast legs in the satin gunmetal finish and large, most convenient one-piece bottom shelf with turned edges. Piping is  $\frac{3}{4}$  inch, all needed caps and couplings being furnished. All inside parts, burners, linings and lighters can be removed or replaced in two minutes. Easily kept immaculately clean and like new at all times. Occupies 43 by 24 inches of floor space. Wrapped in paper and then carefully crated to assure safe arrival. Shipped from Ohio factory.

**Be sure to specify if you want ovens on right or left-hand side.**

**943718** For artificial gas. Wt., 240 lbs. .... **\$37.90**

**943719** For natural gas. Wt., 255 lbs. .... **39.45**

# The Handsomest Range You Have Ever Seen

And Just as Good as it is Good Looking

If you want a range that will make your friends envious every time they see it, here's your opportunity. Styles are changing and improvements are being made in stoves as well as everything else in these modern times. This range is newly improved in dress and design and is now offered for the first time at bargain prices.

The "Modern Scientific" range will pay for itself in fuel economy, ease of operation, time saved, improved foods and permanent satisfaction. Although a very high grade range, manufactured to retail for \$60.00 or more, we save you so much money that anyone who wishes can own one.

**PRICES GOING UP.** In the past few months the iron and steel of which the best ranges are made has advanced from 35 to 40 per cent. The reason our prices are so low is because the foundry laid in very heavy stocks of material at the former low prices. Our cost, also your cost is based on these low prices.

That's why you should send in your order now, as these prices can be maintained only while the stock lasts.

The Design is brand new, generously nickel-plated with the finest silver nickel, heavily plated over copper and guaranteed never to flake or peel off. The almost entire absence of ornamentation makes the nickel parts most easily kept clean and bright as new. The nickel-plated parts are all buffed for flawless smoothness and shine with the brilliancy of the finest mirror. The nickel-plated parts are: door, entire oven door frame, including spring cover, handle and catch. Drop-wood feed door, ash pit door, clean-out flue door and entire reservoir front. Towel bar, towel rod supports and shelf below ash pit door. High closet supported by drop-wood frame and door ornament. Top guard corners, drop tea shelves and revolving draft damper in pipe. All door knobs and broiler door handle. All nickel parts are of ventilated type, to prevent getting hot and tarnishing.

**Distinctively new type of porcelain-lined reservoir.** This is detachable and interchangeable. You can use it as shown or take it off entirely. If your present space doesn't permit a reservoir, you can order the range without it, and get one at any later time. The entire reservoir is of cast iron and lined with removable, easily kept clean, genuine porcelain lined tank. Capacity about four gallons. Operated without a damper. Double cover is removable and will not rust. Entire cast iron front beautifully nickel-plated.

For further details of body, firebox, main top, oven, high closet, base, smoke box, etc., see opposite page, where fuller details are given. All sizes have six 5-inch covers, one nested for small vessels. All take seven-inch pipe. Polished top never requires blacking. Price, \$2.45 extra.

## TRY ONE 60 DAYS AT OUR RISK!

We want you to see one of these magnificent "Modern Scientific" ranges in your kitchen. We want you to see how far ahead it is in appearance, fuel economy and baking results.

In order that you can give it a fair trial, we are going to let you have one of these on approval. If you don't want to keep it for any reason whatever, after trying it 60 days, we will refund your remittance and all freight charges both ways. We could not make such a fair and liberal offer, if the range were not even better than we claim and sure to delight you in every respect. Be sure to order as large a size as you need.

expansion, which eliminates warping or cracking. Far superior to the ordinary piece of stove type.

Large ash pan has cast-iron ends, and can't get out of shape. Removable towel bar with large ball ends.

Every special feature of the range described on the opposite page is embodied in this range. Made by the same very large manufacturers of the same highest grade materials. In addition to possessing all the desirable points of the other range, it has many decidedly new and unusually valuable features exclusively its own. Some of these are:

**Extra deep and high ovens.** The oven in all sizes is 19 inches deep inside and 12 inches high. Oven top has a heavy cast-iron plate.

**White porcelain enameled oven door panel and best quality perpetually guaranteed thermometer.**

**Interchangeable, ventilated fire-box linings** of large size and heavy weight. The fire back and front grate linings are interchangeable, as are also the two end linings.

**Extra heavy duplex grate,** ideal for all fuels,—wood, hard coal, soft coal, cobs or any other kinds of fuel. The entire grate can be removed without loosening a single screw, bolt or rivet.

**Large drop wood feed door** forms a continuous shelf on a level with the tops of grates, when open. Large drop poker door on left end has sliding, instantly adjustable draft damper immediately below the fire box. This enables you to start a fire in the least possible time and regulate it perfectly for all conditions. You can quickly have a roaring hot fire or check it to any desired degree. Special grate and fire-box construction assure the most uniform combustion, saving your fuel bills and insuring perfect baking results.

**Interchangeable key plate** or three panel top is correctly proportioned, exact allowance being made for contraction or

# BIGGEST RANGE BARGAIN ON EARTH

**SPECIAL PRICES** **\$35<sup>75</sup>**  
Retail prices \$45 to \$50

*A splendid baker, strictly up-to-date and fully guaranteed. Thousands of American women have paid \$45.00 to \$50.00 for this identical range under a "trade" name and it is giving immense satisfaction all over the United States.*

**BODY**—Made of heavy gauge, rust-resisting, copper-bearing metal sheets, interlined with heavy asbestos mill-board. This steel will outlast the blued ordinarily used two or three times over. Right-hand wall is protected with an extra cast iron plate, making a double wall and preventing burning out. Parts directly exposed to fire are heavily cast from pure pig iron.

**FIRE-BOX**—Linings are of heavy cast iron, back being in three interchangeable sections. One-piece front grate and removable end linings. All are perforated to permit circulation of air behind them, thus preventing burning out. Fire-box is roomy, takes 13-inch wood, and is proportioned to give the best baking results—is also a proven fuel saver. Improved duplex grate for hard coal, soft coal, wood or any other range fuel. Operated from front of range. Left side has sliding draft damper directly in front of firepot. Swinging ash door with nickeled ash fender below. Extra deep ash pit and large pan. Extension clean-out flue with nickeled door under oven bottom.

**HIGH CLOSET**—Made of rust-resisting steel, of large size with roll back door. Has two nickeled drop tea shelves, and substantial cast iron revolving draft damper in pipe. Extreme top has an extension back with nickeled corners.

**MAIN TOP**—This is of sectional style with three interchangeable key plates or sections and six ribbed 8-inch covers and cut centers. Equipped at front with heavy full length nickeled towel bar. Left end is fitted with a lift-up broiler door with wire handle, useful for putting in coal, toasting or broiling. Direct draft damper controlled from back of main top. Polished top, which requires no blackening, \$2.35 extra. One lid is of nested type for various sized utensils.

Base is of the new sanitary leg style, made entirely of heavy cast iron.

**NICKELED** in the best possible manner over copper, exactly as shown. All nickel parts are of new Colonial style, smooth and of mirror-like brilliance. Guaranteed not to flake or peel off.

**DESIGN**—The manufacturers say of this range: "We have tried to eliminate all frills, ruffles and feathers and instead produce a modern, up-to-date plain pattern, which will be most attractive in appearance, easily kept clean."

**OVEN**—Warranted to be a quick, uniform baker. Constructed of patented leveled copper-bearing steel entirely in one piece to insure against warping. The top is protected with heavy sheet asbestos. A cast-iron support extends across the top of oven plate to support the cooking top and prevent warping. The oven is fitted with two runners. The oven bottom is securely reinforced with cast iron channel bars. Welded wire oven rack is clean and sanitary. Oven door is of spring balanced type and forms a shelf level with the oven bottom when opened. Positive locking oven door handle of always cool type. Thermometer is of best type and guaranteed indefinitely.

## OUR GUARANTEE

Try at our risk for 60 days. If not more handsome, and a quicker and better baker with less fuel than many \$45.00 ranges, it may be returned and money and freight charges will be refunded.

**SMOKE BOX**—A most important feature is the cast-iron flue box at the back of the range. Much more lasting than the sheet steel commonly used.

**RESERVOIR**—This is of the enclosed quick-heating type, built to the body of the stove and fitted with a removable, 15-quart porcelain lined, cast-iron tank. Reservoir cover is in two pieces, finished in a jet black enamel to prevent rusting. A special damper is located directly around the oven instead of around the tank when baking.

**SHIPMENT**—These ranges are shipped from the foundry

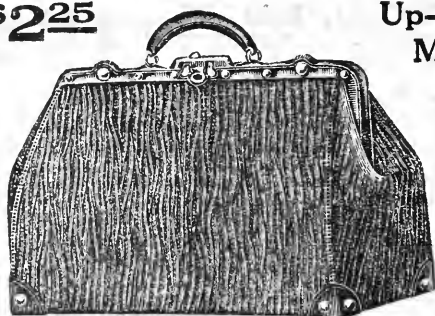

to you. This assures new fresh goods and bright nickels parts. Far better than buying goods that have been in stock or damp warehouses for weeks or months. Foundry is centrally located, assuring low freight rate to all points. Expertly crated to assure safe arrival. Average shipping weight with reservoir, 410 and 425 lbs.

# Lowest Prices on Good Machines

## ALL MACHINES GUARANTEED FOR 20 YEARS

### PIONEER

**Large Sewing Head  
Neat 5-Drawer Case  
Easy-Running Stand**

The Sewing Head is of good size, with an improved type of spring tension located on top of arm. Many, but not all, of the improved features of our higher grade machines are embodied in this.

The Five-Drawer Case is constructed of oak with a good golden varnish.

The Stand is cone-bearing, and well finished in jet enamel. A complete set of attachments is supplied.

If you don't care to pay a little more for a handsome framework, or larger head, ball-bearing stand, etc., order this.

**\$16.75**

Although the model illustrated here is a sewing machine manufactured to sell at a low price, it is strictly dependable in all respects. While not the equal of our better grade machines, it will do a good quality of work, and with proper care will last for years.

Our prices are so reasonable that anyone can afford one of our better machines. We urge you to study their superior advantages before ordering any. Remember, you are buying a sewing machine for a lifetime. They don't go out of style or wear out in a few years.

Our reasonable price includes everything necessary for plain or fancy sewing. At the foot of the page is a complete list of attachments sent free with all machines we offer. Order the machine which will best suit your present and future requirements. **We guarantee both great value and permanent satisfaction.**

## VINDEK SPECIAL

**Strictly Dependable**

**Attractive  
Five-Drawer  
Golden Oak Case**

**Ball-Bearing Stand**

For those desiring a plainer sewing machine than the ones illustrated on the following page, we are offering this neat model.

The Sewing Head is of full size, and will do excellent work. In fact, it is equal to many machines selling at twice the price. Has nearly all of the special improved features of No. 943978 on page 56. Built to give years of hard service and satisfaction. Very satisfactory top tension.

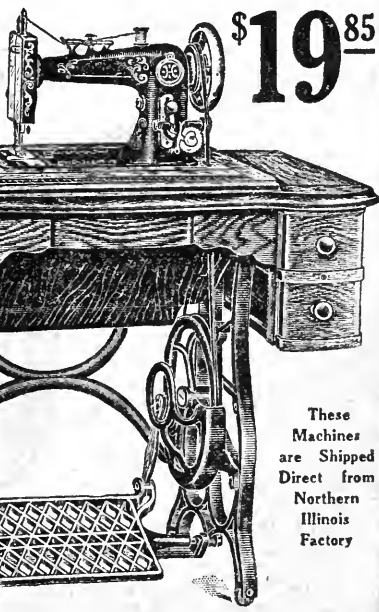

The Woodwork, while simple in design, is constructed of a good quality of figured oak with quarter-sawn lid and drawer fronts, and the four side drawers have attractive turned wood pulls.

The Stand is ball-bearing and its weight and rigidity take up nearly all vibration. With this machine, by means of the attachments which are furnished free, all kinds of fancy sewing can be easily accomplished. Its equal, bought through agents, will probably cost you \$10.00 to \$12.00 more. Backed by our guarantee of absolute satisfaction, and sixty-day trial privilege. Very prompt shipment and safe arrival assured. Weight 115 lbs.

943677 Complete with all attachments for fancy sewing..... **\$19.85**

**FREE**

With each machine we furnish, entirely without charge, a full set of Steel Attachments. These are packed in neat pasteboard or velvet-lined metal box, and consist of the following: Ruffler, Tucker, Binder, Braider, Underbraider Slide, Four assorted width Hemmers, Feller, Quilter, Shirring Slide, Cloth Guide, Twelve Needles, Six Bobbins, Two Screw Drivers, Filled Oil Can, and Illustrated Book of Directions for all kinds of work.

**GUARANTEE**

Our Sewing Machines are all sold with a 60-DAY TRIAL PRIVILEGE. You must be satisfied.

# Supreme Sewing

Full Size High Arm—Ball-Bearing Stand

The Framework is figured oak with a non-warping quarter-sawn lid. The drawers are five in number, are embossed neatly, very substantially put together and have neat pulls. 18-inch tape measure inlaid in table.

The Stand is ball-bearing, consequently runs much easier and quieter. Belt retaining guard prevents machine becoming unbelted when closed. Expertly packed and shipped from Northern Illinois factory.

The Complete Set of Attachments is listed on the preceding page, and furnished free with every machine.

If you want a splendid, easy running machine, which will do all sorts of plain and fancy sewing with ease, buy this or one of our better machines. You will save the small additional price many times over. Shipped promptly from factory near Chicago, Wt., 115 lbs. 943978 Price...\$22.95

# Machine Values

Numerous sewing machines are sold every day as strictly high grade, that are not in any

way superior to this model. We consider it a wonderful example of quality at a very low price. It is of high efficiency, and will suit the most particular.

**\$22<sup>95</sup>**

The Sewing Head is of full size, with an improved type of spring tension located on top of arm. Makes an even double-lock stitch. While not so large or so finely finished as the model below it has improved take-up, four-motion feed, self-threading shuttle, self-setting needle, stitch regulator, automatic bobbin-winder and removable face plate. The working parts are made of special quality steel, which, with proper care, will last a lifetime.

**EVERY** one of our machines is easily understood. This is due to their improved, simple construction. Their remarkable wear is due to the absence of friction, which makes them remarkably easy to use and almost noiseless.

This is our most expensive model and leaves nothing to be desired. The cabinet is exceedingly handsome, being made of quarter-sawn oak with a hand-rubbed polished finish. The drop curtain in the center lifts up when the top is opened.

The Extra Large Sewing Head with an automatic tension release is exactly the same as on No. 943980, described on the next page. Read why it is the best procurable, easiest operated and most lasting.

There is no excuse for your paying \$15.00 to \$25.00 more than our price for any machine. We will let you try this one at our risk, and pay return charges if you are not convinced that it is equal to any you can buy, regardless of price.

Has ball-bearing stand, head, automatic chain lift, and many new features which make it most useful. The top drawers are of half depth.

Take advantage of our special bargain price, and make the machine pay for itself many times over. Shipped promptly from factory near Chicago. Safe arrival and permanent satisfaction guaranteed. Full instructions and illustrations of its many uses, also full set of attachments for fancy sewing furnished free. Weight, 125 pounds.

# This Handsome, High Grade Machine Which Dealers Sell for \$37<sup>50</sup> to \$48<sup>00</sup> Now Offered at Our Generous Price \$28<sup>95</sup>

ALL OUR MACHINES  
GUARANTEED FOR  
20 YEARS

Will Pay For  
Itself Many  
Times Over

Here are some of the reasons why you will be delighted with this handsome new model machine. In spite of its attractive woodwork, we consider that of least importance. What will please you most in the long run is its remarkable simplicity, smoothness, rapid sewing and entire absence of all troublesome features.

Even if you have never used a machine, you can operate this in a few minutes with the perfect results of an expert seamstress. An illustrated book of instructions accompanies every machine we sell. It tells you how to attach, adjust and use the many special attachments for fancy sewing. Its extreme simplicity is due to having less running parts than any other machine on the market. This avoids annoying trouble, friction, noise, and saves you effort, time and energy.

When we say this machine is the equal of any money can buy, we make no reservations. Some very fine machines are made today, and this one is just as handsome, light running, durably made and complete as the best. Remember, we don't exempt machines sold through agents for \$45.00 or more, either.

## Details of Constructions and Operation

The most important part of any machine is the head. The Improved Belvidere is extra large and high, permitting freedom in use, and adapted to all kinds of plain and fancy sewing. All parts are oil-hardened, assuring the longest wear. Has self-regulating disc tension with automatic release, double width positive four-motion feed, automatic stitch regulator on arm, automatic bobbin-winder, self-threading shuttle, steel-capped needle bar and presser bar, positive cam-driven take-up, gear-releasing device and many other recent improvements. Any dealer or expert will tell you these features are all found only on

This  
Machine  
Is As  
Good As  
Money  
Can Buy

the highest priced machines. Each item means much to you. Sew the reliable double-lock stitch. Finished in black enamel with very artistic colored decorations.

**The Stand** is of new design and a marvel of simplicity and speed. Has two sets of ball bearings and runs easily and quietly. Unbreakable steel Pitman rod, with non-binding end adjustments. Automatic device prevents belt slipping off.

**The Woodwork** is of artistic Colonial design with seven drawers. All six side drawers have rounded fronts and distinctive pulls. Convenient center drawer and 18-inch inlaid tape measure in top. Made of quarter-sawed oak, polished to a mirror-like golden finish. Automatic chain lift on drop leaf raises and lowers head.

**The Attachments** are unusually complete. See exact list on page 55. Shipped from Northern Illinois factory. Prompt shipment and safe arrival guaranteed.

**The Guarantee** is absolute satisfaction. If, after 60 days' trial, you think you can get a better machine for any price it may be returned and your money will be refunded.

Auto  
Hood  
**\$14<sup>75</sup>**

If you were a baby again, and could choose your own go-cart, wouldn't you select this one? If you could test it for comfort, sitting up or reclining, over bumps and in storm or sunshine, we believe you would make this your first choice.

The automobile hood has a long, spacious back which shuts off all drafts. The side and rear curtains can be rolled up or down, depending on the weather conditions. Entire hood folds down out of the way when not needed. The covering is the genuine DuPont Fabrikoid imitation leather, advertised as superior to most genuine leathers, and used in many automobiles on account of its wearing qualities.

The body, frame, wheels and gear are exactly the same as on 943907A, described at the left. Folds up in the same compact manner. If you want a go-cart which will answer every possible requirement, of unusually stylish and impressive appearance, order this. Indiana shipment. Weight, 55 lbs.

# Four Exceptional Rug Bargains

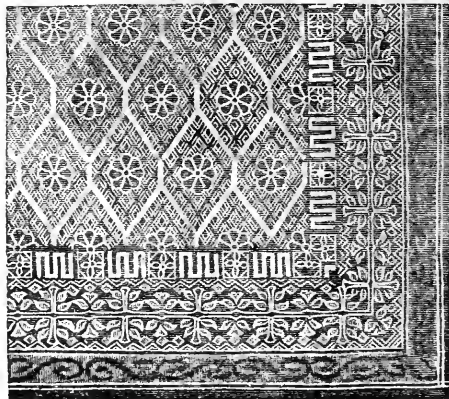

**No. 1365. REVERSIBLE INGRAIN ART SQUARE**

An artistic, pleasing all-over floral pattern with Oriental medallion border. Red, green and tan are the predominating colors, the blending giving a warm, rich effect of maroon, Nile green, ivory, oak and jet. The warm colorings will enrich any room. Woven in one piece. Heavy enough to lie neatly on any floor.

For severe usage, we recommend our higher-priced rugs as cheaper in the long run.

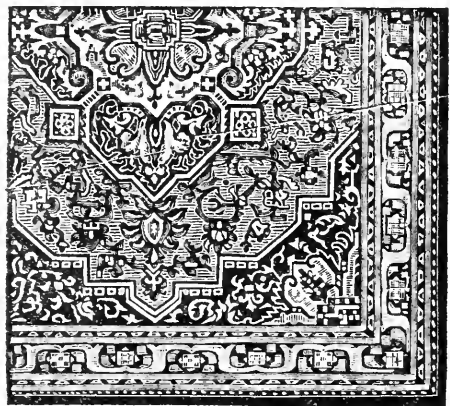

941365M	6 by 9 ft.	Wt., 7 lbs.	\$3.38
941365N	7½ by 9 ft.	Wt., 9 lbs.	4.20
941365R	9 by 12 ft.	Wt., 13 lbs.	6.75
941365S	10½ by 12 ft.	Wt., 17 lbs.	7.84
941365X	12 by 13½ ft.	Wt., 20 lbs.	9.08

**No. 1366 COMBINATION WOOL RUG**

No better wearing rug can be procured at our low prices. Heavily and compactly woven in a most serviceable, up-to-date, all-over pattern with conventional and Grecian border in sharply defined, lasting and pleasing colors. Seamless and reversible, with the same colorings on both sides. The design will harmonize with any surroundings and set off your furnishings in the best manner. The conservative design marks its possessor as being of refined, educated taste.

Very decided values at the following prices:			
941366M	6 by 9 ft.	Wt., 12 lbs.	\$ 5.98
941366N	7½ by 9 ft.	Wt., 15 lbs.	6.85

941366T	9 by 13½ ft.	Wt., 26 lbs.	11.40

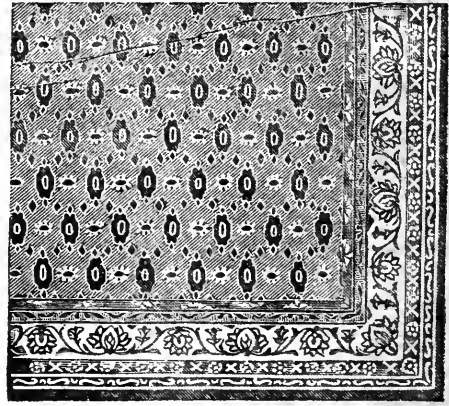

**No. 1367 MONOKAR TAPESTRY RUG**

The handsomest Oriental medallion rug obtainable at our low sale price. A brand new spring, 1918, design in wonderfully soft, mellow shades and colorings. From a distance could scarcely be told from a real Oriental worth hundreds of dollars. The surface is made of the best wool carpet yarns. The dyes are chosen for their lasting qualities, lustre and brilliancy. Colors are very accurately and deeply applied for permanency. For wear or appearance, this Rug cannot be beaten by anything near its price today. Not seamless.

The design is faithfully reproduced from a selected Kermanshah rug, and embodies many colors, with popular tones of tan and green predominant. Furnished only in one size, 9 by 12 ft. Shipping weight, about 22 lbs.

941367R	9 by 12 ft.	\$17.65
---------	-------------	---------

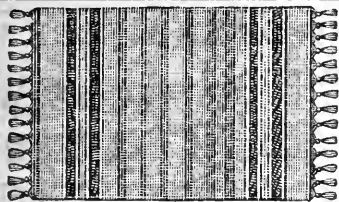

**No. 1369 SEAMLESS PRISCYLA WILTON VELVET RUG**

If you want to be up-to-date and be known as possessing refined tastes, you should have all-over pattern rugs in some of your rooms. The predominating color of the background is a soft shade of oak or tan which always looks bright, clean and shows soil less than any other color. It harmonizes pleasingly with any shades used in decorative work, wall papers, etc., which is of great advantage. On account of the small figures and large ground they tend to look larger than medallion-rugs of exactly the same size, and consequently make a room look larger. The weave is particularly close, assuring softness under foot and long wear. Woven entirely in one piece. The border is dainty, beautifully designed and blended. Will look well after years of service.

941369R	9 by 12 ft.	Weight, 30 lbs.	\$25.65

When you buy one of these rugs, you are buying something of known quality and absolutely guaranteed. In spite of our low prices, these rugs are vastly superior to many similar grades on the market, being heavier, handsomer and much longer wearing. The lot consists of several new all-over designs similar to the illustration. Lie perfectly flat on the floor, requiring no tacks. They have the rich, distinct and soft color effects of the finest Oriental rugs. The body is of heavy wool felt. The wearing surface is highly enameled, and printed extra thick to insure the maximum of service. Guaranteed not to peel or crack. The predominating colors are oak, brown, Nile green, old rose, jet, ivory and maroon.

# A Splendid Bed, Springs and Mattress

## Particularly Low in Price

COMPLETE  
OUTFIT  
ANY SIZE  
OR COLOR

**\$24<sup>90</sup>**

Shipped from Pittsburgh or Chicago  
depending on your location.

If you want something extra good, order this superior quality outfit. You will be pleased with the massive, simple beauty of the bed, and delightfully surprised with the lasting comfort of the mattress and springs.

If you could see several hundred beds of almost all conceivable styles and makes, you would probably do just as we did, and select this bed as the greatest value in the entire lot.

On account of its great massiveness, up-to-date design, simplicity and exceeding durability, many leading hotels have adopted this bed as their standard of worth and economy. Made throughout of steel tubing of extra large size, continuous posts and top rods being 2 inches in diameter, vertical filling rods, 1 1/16 inches in diameter. The joints are electrically welded to insure great strength and unusual durability.

The enamel finish is of porcelain smoothness, not rough or gritty to the touch. This is due to the fact that it is made of steel tubing—not the old-style cast iron. This enables you to get a bed of light weight but exceptional strength. The legs are fitted with the celebrated "Universal" cup casters, all steel, extra large and easy running at all times. Height of head, 52; foot, 35 inches. Shipping weight, 167 lbs. Furnished in 54, 48 and 42-inch widths. Be sure to state width and color you prefer. All are of standard bed length, six feet, four inches.

Do you know that there have been wonderful improvements made in bed springs in the last few years? If you have ever considered the matter, you realize that the strong supporting points of a bed are at the corners. Therefore, a spring which is supported elsewhere, is mechanically imperfect, and subjecting the bed to more or less strain for which it is not fitted.

These springs have no weak points, and are, therefore, guaranteed by the maker for twenty years. Not only are they guaranteed not to break or come apart, but they are guaranteed not to sag. Think what lasting comfort that means. Isn't it real economy to buy something which will not have to be replaced in a few years, and which does not become more and more uncomfortable as it is used.

Note the sanitary features, with no vermin or dust-catching corners. The fabric top is especially treated, and is wonderfully rust-resisting. A full quota of heavy helical springs at each end support each strand of the double-woven and twisted-wire fabric. Band edges are elevated four inches from the side rails of the bed by means of malleable corner castings. Side rails of heavy steel tubing. Weight, 54 lbs.

The mattress is our new half cotton combination mattress, which makes a wonderfully good, comfortable and durable article, at a price which cannot begin to be approached on anything of its comfort and durability. Covered with a handsome art ticking. Weight, in full size, 45 lbs. net. Closely stitched and evenly diamond tufted top and bottom. Guaranteed to contain brand new clean materials only—no shoddy, "colored stock," jute, excelsior or husks.

# Cribs, Cradles and Cots at Cut Prices

## Continuous Post Steel Crib with Sliding Side

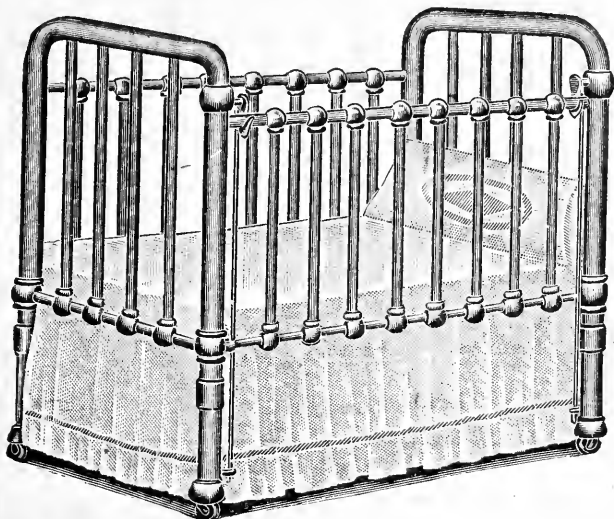

This handsome seamless tubing crib is built to give a life-time of real service and is finished to retain its beautiful porcelain enamel luster, if given ordinary care. The head and foot ends are both 42 inches high, continuous posts and top rods being of  $\frac{1}{2}$ -inch steel tubing. The eight vertical rods in head and foot are of solid  $\frac{1}{4}$ -inch steel, fastened at the top without any chills. The side rods are of 5-16-inch solid steel bars and the 16 upright side fillers  $\frac{1}{4}$  inch in diameter.

The slides extend 17  $\frac{1}{4}$  inches above the springs. The sliding side is easily raised or lowered with one hand, and automatically and securely locks when up.

**The Springs** have the same patented link fabric as used on our fine bed springs shown and described at the top of page 72. This assures you of a never-sagging, even sleeping surface, absolutely sanitary and especially coated to prevent rusting. Securely fastened with oil-tempered helicals, of special children's size, attached to angle steel at top and bottom.

Two standard sizes, either white enamel or Vernis Martin satin brass finish. Shipped from Pittsburgh or Chicago, depending upon your location.

**\$665**

**HIGHEST QUALITY  
MATERIALS, CON-  
STRUCTION AND  
FINISH**

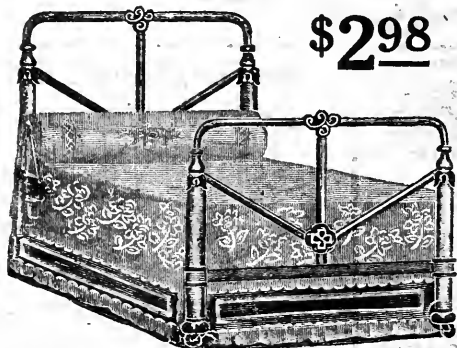

Beds of continuous post type are by far the strongest, because the corner posts and tops of head and foot are made of one continuous piece of steel tubing. They are always stylish, neat in appearance, and will last almost indefinitely if given ordinary usage and care.

That is why we urge the purchase of this bed, as far more economical in time than those sold by us for less money. The posts and top rods are of 3/4-inch steel tubing. Bottom rods and ten vertical rods of 5-16-in. solid steel. Head, 54; foot, 37 inches high. Smoothly wrought cast-iron chills, 54, 48 or 42-inch width. Weight, 64 lbs. Shipped from Pittsburgh or Chicago, depending on your location. We aim to save all our customers as much money as possible by shipping from points taking lowest freight rates.

# Latest Styles in Wood Beds

## A Bargain in a Colonial Four-Poster The Dressiest Bed Ever Designed

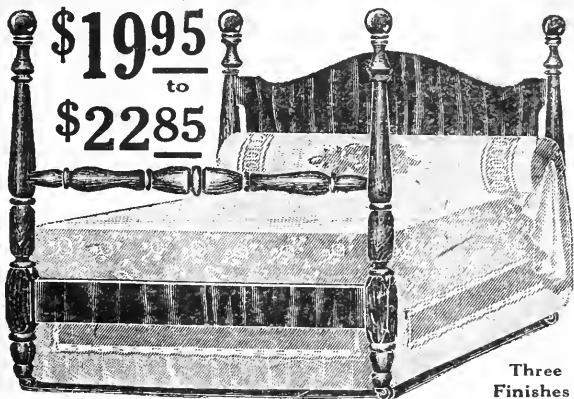

Everyone of good taste either owns or has wanted at least one four-poster bed. They are used in the wealthiest, most stylish homes and harmonize with almost all styles of furnishings.

A particularly fine feature of this new model is the new sanitary steel side rail construction, doing away entirely with slats. They use standard full size (54 inch) springs made for metal beds.

The posts are smoothly and symmetrically turned from heavy hardwood stock, are finished to match the beautifully veneered quartered oak, genuine mahogany or American black walnut of the head and foot panels. Posts all measure 62 inches high.

You will find no better designed models in exclusive furniture stores for at least \$10.00 more. Shipped from factory near Pittsburgh. Weight, 100 lbs.

## Arts and Crafts Design Sanitary Steel Side Rails

\$13<sup>95</sup>

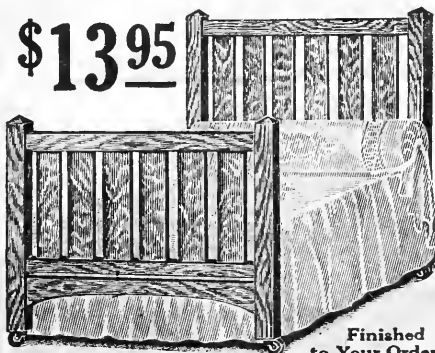

This newly designed bungalow bed meets a long felt want. It is almost everlasting, massive, attractive, cool in summer and absolutely sanitary. It has steel side rails instead of wood, uses metal bed springs without slats. Made of solid figured oak throughout with six 4-inch quartered oak uprights in both head and foot. Posts and top rail are 2 1/4 inches wide. Height of head 52 inches. High-grade maple casters. Finished a durable golden gloss, wax fumed, or any color enamel, including French gray and ivory.

Beds of this type are rapidly supplanting brass beds, because of their greater beauty and durability. You can match the rest of your bedroom furniture.

They are ideal, because they leave nothing to be desired, and have no objectionable features, as in the old style wood beds which require slats.

Shipped from Indiana factory. Width 54 inches only. Standard length. Weight 90 lbs. Built to last a life time.

# Values in Hygienic Mattresses

## Interesting Information About Our Mattresses

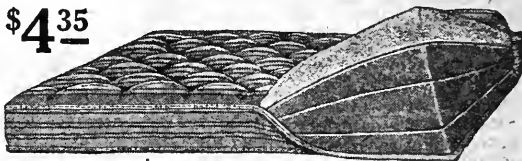

Pennsylvania has especially strict mattress laws, which are of interest to every mattress user or buyer. Many States have no such laws and mattresses may contain almost any materials from all sorts of sources. You can be assured of sanitary, brand new cotton or other materials when you buy a mattress particularly made to comply with the Pennsylvania laws.

Our mattresses are all made to order, and our specifications are to see how well they can be made. No materials ever before used for mattresses or other purposes are used inside. Skilled labor and modern machinery assure uniform stitching, edging and tufting. We do not claim to sell the cheapest grades of mattresses, but the best for the money. In spite of exceptionally high quality of workmanship and filling materials, our prices will be found much lower than those asked in many retail stores for inferior qualities.

### A \$5.50 Mattress for

A well-made excelsior combination mattress. For extreme comfort or severe usage, we urge the purchase of our reversible mattress described below and priced at just a little more. This mattress contains only new materials, being filled with a good grade of excelsior over which is laid clean, sanitary, elastic layer felt, covered with a neat striped ticking. Wt., 45 lbs. **\$4.35**

**\$4<sup>35</sup>**

**\$5<sup>48</sup>**

### Reversible Model

We recommend this mattress to those wishing a low priced article which will give excellent service. The top and bottom are covered with a layer of elastic felt, so it can be used on either side. The ticking is tastefully striped and of much better quality than on the preceding number. Weight, 45 lbs. Made with plain edges and diamond tufted at top and bottom.

**\$5.48**

### Luxurious Comfort

is assured every purchaser of this mattress. Owing to the exceedingly high prices of cotton, experts have made careful and severe tests with other materials. Although no substitute is equal to all cotton, tests have proved that a half cotton mattress can scarcely be told from an all cotton, so far as sleeping comfort is concerned.

Do not confuse this with mattresses containing only a few pounds of cotton felt. It is worth, many times over, the best so-called combination mattresses in durability and lasting comfort. Hygienic, sanitary, and contains no excelsior or husks.

An attractive blue and white art ticking is used. Carefully diamond tufted. Weight 45 lbs. **\$8.95**

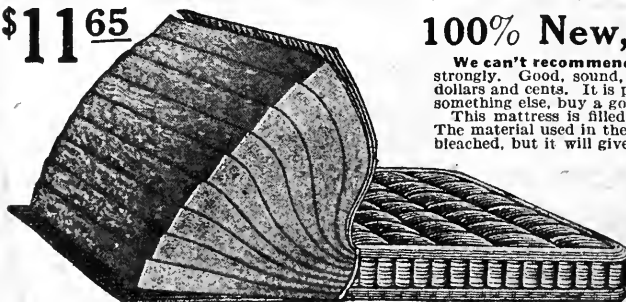

### Half Cotton

### 100% New, Clean Cotton

We can't recommend the purchase of a good mattress too strongly. Good, sound, refreshing sleep can't be figured out in dollars and cents. It is priceless. Even if you have to do without something else, buy a good mattress.

This mattress is filled entirely with new, clean elastic cotton. The material used in the manufacture is not pure white, nor is it bleached, but it will give years of splendid service, and nearly as

much satisfaction as the higher qualities, which retail daily for many times our price. The entire mattress is made on the most improved machines, which assures strong tufting and finest workmanship obtainable. The weight in full size is 45 lbs. Welted edges and stitched sides. Covered with a beautiful French floral art ticking.

**\$11.65**

# OTHER SUPERIOR MATTRESS VALUES

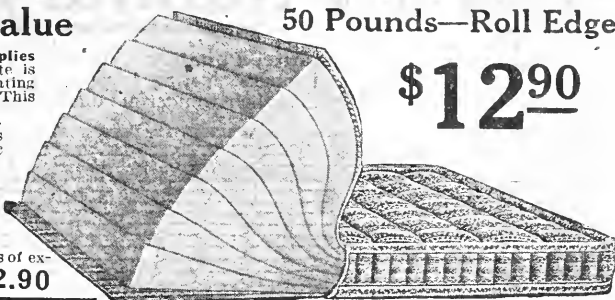

## → A Startling Value

50 Pounds—Roll Edge

Every one of our mattresses complies with all Pennsylvania laws. This state is noted for having the most strict laws relating to the materials used in mattresses. This means perfect protection to you.

50-lb. elastic cotton Imperial roll-edge mattress. This serviceable mattress contains only new, clean white elastic cotton, and will be found equal in workmanship and all other respects to most mattresses which retail for 50 per cent more. Covered with a tasty striped or floral art ticking, with an Imperial roll edge all around. Diamond tufted with the best twine and cotton tufts. Designed to give years of extreme satisfaction. Stitched sides.

# Selected Sanitary Springs

Our springs are all of guaranteed quality. Those on this page are of the newest, cleanest, lightest yet strongest and longest lasting types. If you have never owned or slept on springs like these, you can't realize their wonderful comfort and many other advantages.

**\$5<sup>85</sup>**

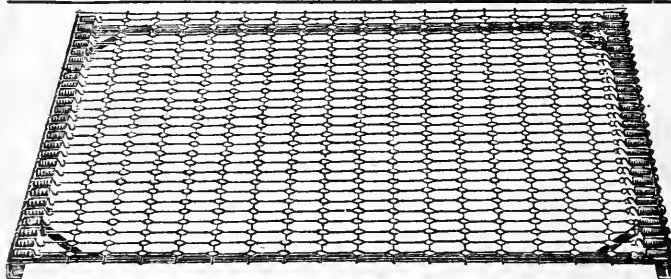

Will  
Last  
20  
Years

The non-rusting wire fabric sleeping surface of this spring is unqualifiedly guaranteed not to sag, stretch, break nor come apart for **TWENTY YEARS**.

The last few years have been noted for rapid strides in bed spring improvements. Springs of this type are much longer lasting, far more sanitary, easier handled or kept clean, than the older types of woven wire and coil springs. The patented link fabric top consists of hundreds of numerous strands of double non-rusting wire, supported with 29 helical coil springs at each end, whose combined supporting weight is thousands of pounds. Edges of top are reinforced with non-rusting steel bands. These are five inches above the rails of bed, giving a box spring effect and comfort without its expense or clumsiness. The frame is of heavy angle iron with 1 1/4 inch pipe side rails. Corners have double malleable castings, virtually unbreakable. There are no projections to tear bed clothing. Enlarged illustration at right shows the details of corner, band edges and top. There is no weight or strain on the bed rails.

One of the greatest advantages of springs of this type is, that there is no tendency to roll to the center, therefore an adult and child can sleep together with the comfort of separate beds. No slats are needed when used on metal bed. No special slats required on wooden bed. Be sure to give size of your bed and state if metal or wood. Furnished in any standard width. Shipping weight, about 55 pounds.

**941727A** For metal bed.....**\$5-85** **941727B** For wood bed.....**\$5-80**

An up-to-date sanitary bed spring. The fabric top is identical with the one above. It is supported at the ends with helical springs, 26 at each end. Heavy coppered wire reinforces the sides. Frame is Bessemer angle steel, corners being firmly bolted and braced. While we recommend the better spring shown above on account of its side elevation, box spring comfort, slat edges and malleable double corners, this will also be found very comfortable. Will not roll occupants to the center **941726** Any size.....**\$3-45**

"National" fabric spring. Similar to the spring at the top of the page, but with heavier wire top fabric of different weave. Three end helicals support each strand. Double malleable corner castings elevate top 5 1/2 inches above the 1 1/4 inch tubing side rails. Shown inverted to show construction better. Finished in gold bronze. Weight, 55 pounds.

**941730** Any size, for metal or wood bed.....**\$6.65**

Guarantee  
Protects  
You

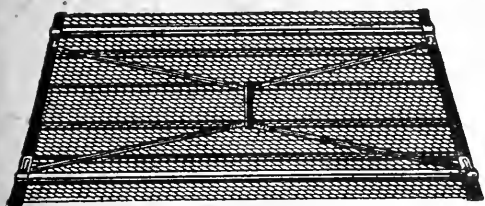

W. & H. WALKER

Pittsburgh, Pa.

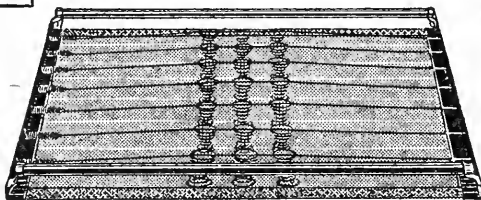

# A Good Spring for Every Requirement

An inexpensive, but very satisfactory spring for many requirements. The frame has steel tubing sides and heavy angle steel ends. Reinforced corners prevent it twisting out of shape. The top is covered with closely woven wire fabric, reinforced with heavy strands at regular intervals. Heavy steel slats, connected at the corners and center with helical springs as shown, support the fabric. In the long run, our better springs on the preceding page and those below will be found much more than worth their slight additional cost. Weight, 40 lbs.

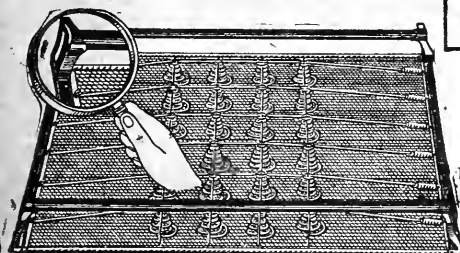

**941731** Any size, for metal or wood bed, .... **\$3.30**

## A Most Superior Spring

This spring has the following great advantages over the one above. Large pipe side rails  $1\frac{1}{4}$  inches in diameter.  $1\frac{1}{2}$ -inch head and foot angles. Fine pencil weave woven wire fabric top with reinforced edges. Malleable corner castings elevate the sleeping surface three inches above side of bed; 21 coppered spiral springs in three rows support the center. Fastened to ends with seven heavy helical springs. Frame finished bronze. Weight, 48 lbs.

**941732** Any size, for metal beds..... **\$5.40**

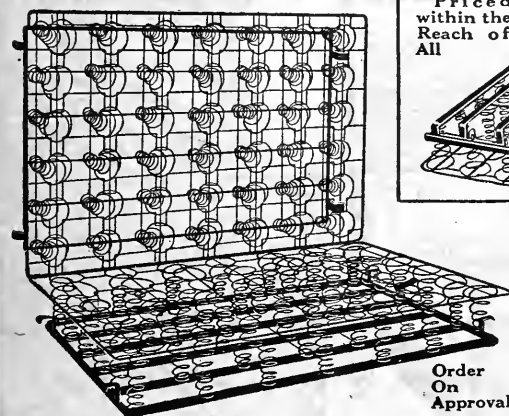

## Our Finest Woven Wire Spring

A very superior spring, guaranteed to give years of greatest comfort. Much superior to the springs above, for the following reasons: Extra heavy,  $1\frac{1}{4}$ -inch pipe side rails with double malleable iron corner castings. See view through magnifying glass. These raise the sleeping surface six inches above the rails of the bed, assuring as much comfort at the sides as in the middle. Finely pencil woven top fabric has cable ties. Reinforced with four rows of coppered, non-rusting spiral coil springs, 24 in all. These are supported on heavy cross wires which have large helical springs at the end. This construction assures the maximum of strength and lasting comfort. Shipped from Pittsburgh or Chicago. Weight, 54 lbs.

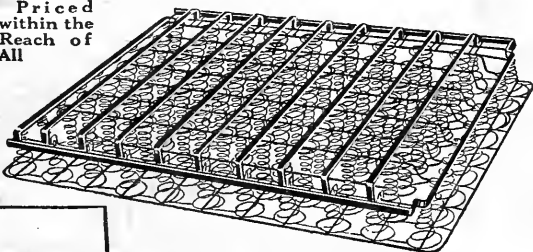

**941733** Price, any size, for wood or metal bed... **\$6.90**

# SAVE 45% ON EXTRA FINE PIECES

By far the finest bedroom suite and at the same time the biggest bargain we have ever procured in anything of this sort. We bought an entire factory surplus and are selling them at prices which cannot be approached by 45 per cent in many retail stores.

The five pieces of this suite are all matched in every detail. You can select one piece or several, depending upon your exact requirements. Every piece is made in four different woods.

1. Imitation quarter-sawed oak on hardwood.
2. Genuine quarter-sawed oak, cross banded.
3. Figured and matched mahogany.
4. American black walnut.

The imitation oak and genuine oak are finished a rich, durable golden gloss. Mahogany can be furnished either hand polished or rubbed dull, and the walnut in the dull waxed finish only. All mirror frames, tops, edges, drawers, fronts and panels are of built-up non-warping stocks, except in the imitation oak, which is solid. The lines are true Colonial, bringing out the beautiful woods and finishes perfectly. These designs are always popular and in style, having stood the test for over a century. The upper drawers have rounded fronts to harmonize with the full scroll mirror standards, front posts and feet. The drawers have wood knobs, screwed on full dove-tailed fronts and are machine fitted to slide without binding. The dresser, Princess dresser and chiffonier have divided top drawers. The mirrors are equipped with friction hinges which hold them rigid at any desired angle. The dresser, Princess dresser, commode and chiffonier all have double thick plank tops, the massive rims showing the same beautiful woods as the top itself. Upper drawers are projecting.

All mirrors are of select quality, bevel French plate. All are shipped from Southern Indiana. Expert and careful packing insure their arrival in perfect condition.

The dresser top measures 42 inches long and 20 inches wide. The beveled French plate mirror is 30 inches long and 24 inches high. Large end panels show the same selected and matched woods.

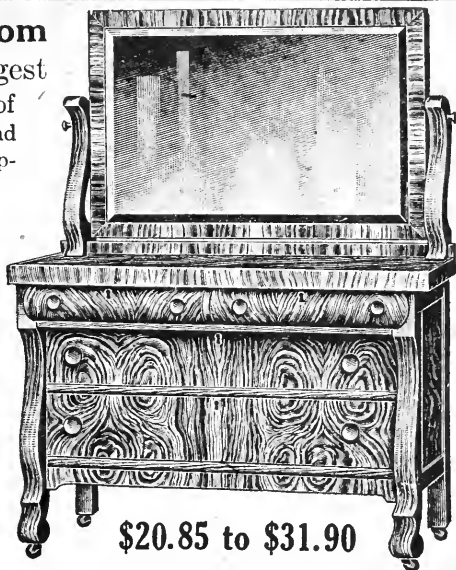

The Princess dresser shown below has a 40 by 20 inch plank top and a 36 by 24 inch mirror.

The commode has a full length drawer and double door compartment below. The plank top measures 30 by 16 inches.

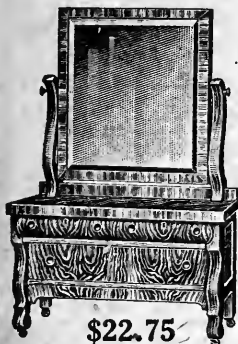

The bed is made only in the full size, 54 inches wide and is 56 inches high at the head. The imitation quartered oak bed has a lower head, measuring only 48 inches high.

The chiffonier contains six drawers of three different sizes; plank top, 32 by 19 inches; mirror, 20 by 16 inches.

\$39.75 to \$46.95

**Here's the finest, biggest and by far the handsomest dresser** we have ever catalogued. More real worth, elegance and usefulness than in dozens of cheaper ones. We can't begin to tell you how beautiful it is.

**Every piece of wood used in its manufacture** is especially selected for unusual and choice figure. Then when made up the fronts of all six drawers are matched. The massive plank top edges and colonial posts, feet, mirror frame and standards are all cross-band veneered to carry out the rich beauty. The entire absence of carvings or other adornment brings out the beautiful woods and the superb finishes to the best possible advantage.

**Made in three woods**—quarter-sawn oak, hand polished all over,—genuine mahogany, hand polished or dull rubbed,—Circassian walnut imported from the old world, dull rubbed. This wood is almost unprocurable since the war. We particularly recommend the rubbed or satin finish on the mahogany, as it is much more easily cared for than the high polish.

**All drawers** are of dovetailed construction, have heavy sides and bottoms, steel stops, brass escutcheons and Colonial wood knobs. They are fitted by machine which insures freedom from binding, yet snug fit. Entire case has dust-proof back, bottom, sides and top. The three upper drawers have rounded fronts and project over the lower drawers. The bottom drawers are of full length and width, of three different heights. Good locks and casters.

**The mirror** is of select, clear bevelled French plate glass of first quality. Size, 34 by 28 inches. Knobs on standards lock it at any desired angle. Top is most massive appearing on account of the double thick edges, and measures 45 by 22 inches. Shipped carefully crated from factory in Indiana. Weight, about 210 lbs.

## This Massive Matched Oak Colonial Dresser \$22<sup>45</sup>

This is a value which is far from ordinary, yet you can have one now.

We have tried to set our price as low as possible on these pages so that everyone could have an opportunity to improve the appearance of his home.

**This massive dresser** will greatly enhance the appearance of any room, owing to the extra heavy stock used in making the mirror standards, front posts, scroll feet and mirror frame. To match these heavy lines, the top is made to show a double thick edge all around. This plank effect top measures 42 by 22 inches and the beveled French plate mirror 30 inches long and 24 inches high. The illustration reproduces slightly the artistic oak stock, which is selected for large figure and unusual beauty. Drawer fronts are all matched, greatly adding to its attractiveness.

All drawers are fitted with Colonial wood knobs good locks and are adjusted to slide without sticking or binding. Wood knobs lock the glass at any desired angle. Finish is a clear, lustrous golden.

All parts of this dresser which are most liable to warp are of built-up, non-warping stock, absolutely unbreakable. Shipped from factory near Pittsburgh. Weight, 160 lbs.

Entire Front Is Beautifully Matched

# Four Patterns in Pleasing Princess Dressers

One of Our Special Values—A Leader at **\$13.85**

*Make use of our catalogue. Enjoy its opportunities. That's the practical way to have a well furnished home.*

Because of its unusually attractive appearance in a room, a princess dresser is preferable for many requirements. The absence of one large drawer in the base is more than offset by the extra long mirror, which is so long that it can be tilted and used as a pier glass, enabling the user to see oneself from head to foot.

This daintily designed model is beautifully finished in a rich golden quartered oak effect on seasoned hardwood. The double top is shaped to correspond with the full swell front of the three drawers, and measures 34 inches long and 20 inches front to back. The drawers are carefully fitted to slide easily and have colonial wood knobs and good locks. The shapely pattern mirror is of clear bevelled French plate glass and measures 28 inches high and 16 inches wide. The wide mirror frame is ornamented at the top with clear-cut wood carvings. The ornamentations on the back rail match correctly. Shapely mirror standards harmonize with the lower front strip and legs. Good casters. Shipped carefully crated from Southern Indiana and safe arrival assured. Weight about 115 lbs. Will compare more than favorably with most \$18.00 to \$23.00 retail values.

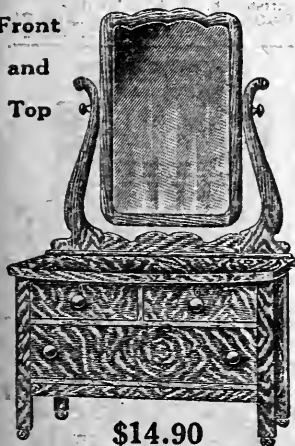

**943454** Special bargain price..... **\$13.85**

**Full Swell Front**

## Quartered Oak

Front  
and  
Top

**\$14.90**

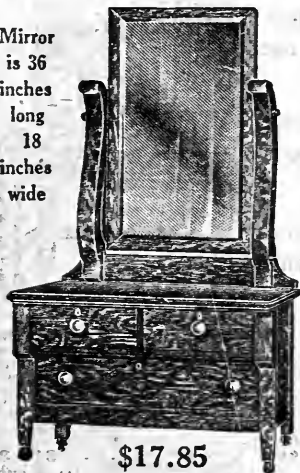

Here's a value sure to interest you. Low in price, but splendidly constructed on French Colonial lines of dainty simplicity.

This solid oak princess dresser has a genuine quartered oak front and top. The mirror standards and frame are of dainty French type, smoothly rounded. Mirror is of select quality French plate glass, 30 inches high and 18 inches wide. Wood knobs lock it in any desired position. The swell front top is 33 inches long. All drawers have wood knobs and good locks. Finish is a clear, durable golden gloss. Shipped from Southern Ohio factory. Weight, 120 lbs.

# Big Savings in Wardrobes

## \$7<sup>75</sup> and \$8<sup>25</sup>

Read this description carefully and you will see why you should order one or more of these while we are able to maintain such low prices. These were made by a factory specializing in wardrobes. The outside measurements are, height, 78 in.; width, 40 in.; depth, 16 in. The spacious wardrobe compartment has double doors with heavy hinges, good catches and locks. A full length hat shelf extends across the top and double coat hooks are furnished. At the bottom there is a full length drawer with mission style handles. The large door panels are of choice figured oak and are of special three-ply, built-up construction which prevents them warping. The projecting cornice top is surmounted with a shapely top strip.

Notice the new Colonial design and entire absence of decorations difficult to keep clean. It is made throughout of seasoned hardwood and the entire front shows choice figured genuine oak. We can also furnish them without the oak front for a little less money. The finish is a handsome, durable, light golden gloss.

You save more than one-half in freight charges from the factory in Central Indiana, owing to its patented knockdown construction. This enables it to be shipped in very compact form, materially reducing the weight of the crating and assuring safe arrival. The greatest advantage of this particular patented construction is that anyone can easily put it together in a few minutes' time; full instructions and all screws being furnished. When set up, it is exceedingly rigid. Shipping weight, about 150 lbs.

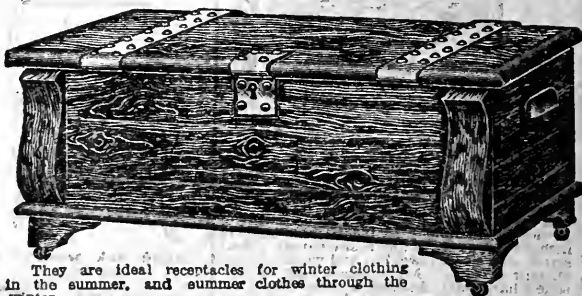

Owing to the very slight difference in our selling prices, we particularly recommend the oak front model as it is by far the greatest value.

943426 Without oak front. . . . . \$7.75  
943427 With figured oak front. . . . . \$8.25

## Highest Quality Tennessee Red Cedar "Hope Boxes"

Ornately  
Copper  
Trimmed **\$10<sup>75</sup>**  
UP

Although offered at bargain prices, these cedar chests, or "Marriage Chests" as they are frequently called, are of the finest quality built to last for many generations. They are made throughout of heavy selected quality aromatic Tennessee red cedar, finely varnished and satin finished. Dustproof top has non-pickable brass desk lock, extension hinges and lid supports. Top and key plates are ornamented with handsome copper bands, lacquered to prevent tarnishing. The Colonial scroll ornamentations on the front harmonize with its substantial shapely feet, which are mounted with strong casters. Carefully crated and shipped from factory in Illinois. Regular retail values \$15.00 to \$24.75. A carton of cedar chips is packed inside.

They are ideal receptacles for winter clothing in the summer, and summer clothes through the winter.

# Two Great Values in Chiffonier Wardrobes

**Special  
Sale Price**

**\$12<sup>95</sup>**

Did you ever see an article of such practical convenience within \$5.00 of this special price?

This article will fill so many practical wants that it has been nicknamed "The Bachelor's Value." However, it is just as useful for women's wearing apparel as for men's.

One of these will daily prove of economical and practical value in your home.

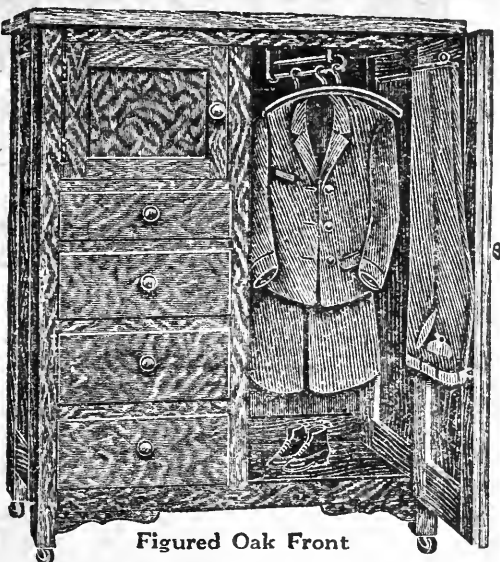

Made throughout of seasoned hardwood, the entire front being of solid oak. The finish is a lasting golden, highly glossed. The entire back and all drawer bottoms are of three-ply stock, absolutely non-warping, unbreakable and dust-proof.

The right-hand side contains a roomy wardrobe compartment 21 inches wide, 17½ inches deep and 50 inches high inside. The interior is fitted with a nickel-plated extension rod and three coat hangers are furnished. The door has a good lock, large oak panel, and is fitted inside with a nickel hanger which holds several skirts or pairs of trousers.

The left side has a large, swinging door hat compartment at the top and four drawers below, three of which are extra deep and capacious. These drawers are especially fitted to slide without sticking or binding and have wood knobs.

The top measures 19 by 41 inches; total height from floor, 62 inches. A special newly patented collapsible feature assures you not only of safe arrival, but more than one-half saving on freight charges. This knock-down construction enables it to be shipped very compactly. When put up (which is easily done by anyone, full instructions being furnished) it is exceedingly rigid. Shipping wt., 139 lbs. Shipped from factory in Central Indiana.

943429 Special sale price ..... **\$12.95**

**Figured Oak Front**

**Anybody Can Afford It  
At Our Low Price**

**Colonial Desk-Robe \$19<sup>95</sup>**

Three pieces of furniture of every-day need combined in one handsome, practical article.

This combination Desk, Chiffonier and Wardrobe is designed along artistic Colonial lines, massive in appearance, but most graceful.

The absence of unnecessary ornamentation shows to the best advantage the handsome figuring of the quarter-sawed oak graining. In addition to being a brand new design, it is unusually well made and beautifully finished a lustrous golden.

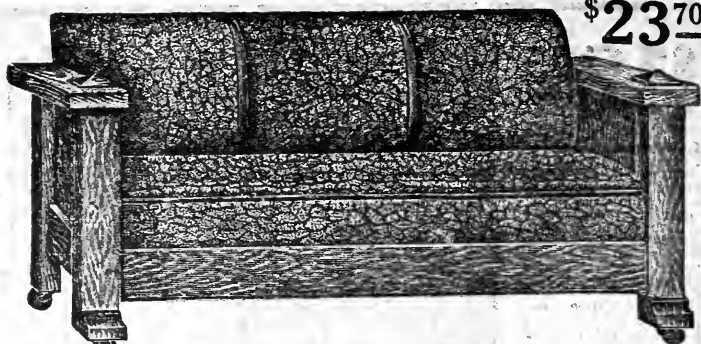

The right-hand side has a roomy, deep wardrobe with a full-length swinging door. The interior is fitted with three coat hangers on a sliding nickel rod. The door is equipped with a nickel-plated skirt or trousers holder.

The left-hand side contains three large, well-made and fitted drawers with wood knobs. Just above these is a writing desk compartment with a practically arranged interior for books, stationery and envelopes and a small drawer for stamps, etc. The writing desk is of drop-leaf style, rigidly supported when down and fitted with a good lock. Above this is a large hat compartment with swinging panel door. Notice the full-length Colonial scrolls which harmonize correctly with the feet and outlines. The top is of double thickness and 45 inches long. Height from floor, 62 inches.

Made throughout of carefully selected and hand-dried hardwood finished a lustrous golden, the varnish being waterproof. Can actually be washed with soap and water. Shipped from Southern Indiana. Shipping wt. about 175 lbs.

943430 Price..... **\$19.95**

# 1918 Automatic Bed Davenport Models

\$23<sup>70</sup>

This automatic bed davenport meets a long-felt want at a remarkably low price. Instantly converted to a full-length bed large enough for two persons. Under the seat is a full-length wardrobe box for bedding. The frame is of solid figured oak, in a durable golden gloss or the new nut brown fumed.

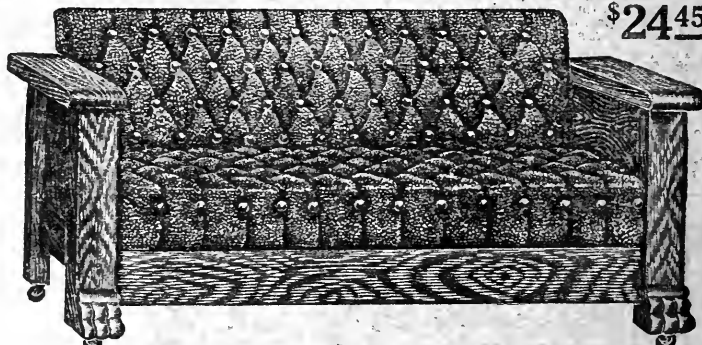

Seat and back contain 30 oil-tempered coil springs which are guaranteed in every respect. These are secured at both top and bottom. The soft filling materials, wood fibre and cotton, are uniformly laid over them. Length, 72 inches inside of arms. Size of sleeping surface with back down, 42 by 72 inches.

The seat has a spring edge and the back a new, three pillow effect. Shipped from Northern Illinois. Weight, 170 pounds.

# This Ideal Davenport With Separate Bed and Springs Inside

## \$37<sup>45</sup>

This is a genuine "Unifold" bed davenport with a beautifully designed Colonial frame and covered with high-grade, long wearing materials.

Quarter Sawn Oak or Real Mahogany

In most retail stores you would pay from ten to sixteen dollars more for its equal. One operation instantly changes it from a luxurious large davenport, 76 inches long between the arms, to a most comfortable bed 72 by 47 inches.

The Davenport Seat contains 21 highly tempered Premier wire coil springs and there are 6 more in the back. Upholstering is accurately placed over heavy duck canvas, soft flax fibre and a layer of clean white elastic felted cotton. This assures permanent satisfaction. The bed has an entirely separate set of springs. Bedding has plenty of room inside and special devices keep it always in place. You don't sleep on, or wear out the upholstery, but lie on a separate, removable mattress.

All prominent parts of the frame show choice quarter-sawn oak, or genuine mahogany. The broad arms are of simple Colonial style, rounding continuously with the front posts. The back has an arched top as shown, and is upholstered in the new three-pillow effect. Neither seat nor back have any tufting or ruffles to catch dust. The simple lines will never become tiresome and best bring out the rich beauty of the wood.

In ordering, specify whether you want golden oak, fumed or mahogany finish. Shipped with back and ends removed to save freight charges and insure safe arrival. Full instructions are furnished for assembling easily. Absolutely rigid when put together. Covered with an extra good grade of black or Spanish, imitation or genuine leather. Shipped from factory in east or west, depending upon your location. Weight, about 290 lbs. Mattress not included at these prices.

# Have You Seen the "Duofold" Parlor Suite?

This massive, newly designed living room suite with Duofold bed must be of great interest to everyone, as it almost completely furnishes any parlor and at the same time gives you a separate bed for regular or emergency use. The Duofold bed davenport looks like nothing but a beautiful divan, yet with two slight operations it can be instantly converted into a full-length double bed as shown below. The mattress and bedding fold up inside ready for use.

*You can buy any piece separately if you prefer*

**Grasp this opportunity to beautify your home**

**Get the convenience of an extra bedroom without its expense or bother**

## Brand New 1918 Design

The Frames show choice quarter-sawed oak on arms, back, front posts and seat strip. Hand polished a rich golden gloss or the new serviceable, soft brown fumed. Also supplied in birch, hand polished mahogany finish. Shipped from factory in east or west depending on your location. We always give our customers the benefit of the lowest possible freight rates.

The Duofold Bed Davenport has a stationary back and does not have to be moved from the wall when opened for use as a bed. The back is upholstered in three-cushion style. Broad top panel is arched and shows off the finely figured woods to the greatest advantage. Length of seat, 52½ inches; size of bed when open, 4 by 6 feet.

It contains two sets of springs, one for the davenport seat and a separate set for the bed. The latter are of heavy non-rusting tempered wire, supported at ends and sides with 18 oil-tempered bolicals, affording a comfortable sleeping surface which will not sag or roll the occupants to the center. The 18 seat springs are of large, oil-tempered coils, affording the most comfort at every point. These are secured on heavy crimped cross wires for extra comfort and strength. Shipped in four sections to save freight charges and assure safe arrival. Easily set up by anyone.

The Chair and Rocker have full size spring seats, expertly upholstered over clean cotton felt and other soft materials. Springs are guaranteed the best obtainable. The backs are of a desirable height, slanted at a most comfortable angle. Full panels under arms. Upholstered with an excellent wearing imitation black or tan Spanish leather, also in guaranteed black and tan Spanish genuine leathers. All upholstery is done over canvas, expert workmen and improved machinery combining to give the finest results. Seats have cord fronts.

The entire absence of tufts and ruffles makes it most easily kept clean and marks the owner as possessing a highly cultivated taste. Order one, two or three pieces, according to your requirements.

When no finish is specified, we usually ship golden Weight of Duofold bed is about 260 lbs., chair and rocker 70 lbs. each.

# STYLE-QUALITY-SAVING IN THIS 3-PIECE PARLOR SUITE

**\$36<sup>95</sup>** Our Prices Represent a  
Saving of Nearly \$10.00

The filling materials are of high resiliency, assuring extra comfort. The backs are upholstered to match the seats. The absence of tufting makes it most easily kept clean, and denotes strictly up-to-date design. Chair and rocker seats are 20½ inches wide—divan seat, 39 inches. Chair and divan have casters. Shipped set up and carefully crated from factory in Chicago, Ill. Weight, about 175 lbs.

**943654** Imitation black leather. **\$36.95**  
Imitation brown Spanish leather. **37.95**  
Genuine black leather. **44.85**  
Genuine brown Spanish leather. **46.45**

Take advantage of your opportunities. Order this attractive suite now. It's easy to have at our extremely low price. You will scarcely miss the money, and before you know it you will have a more inviting, more useful home for every member of the family. Good furniture not only gives permanent pride to the owner, but assists materially in getting the most out of home life.

This Parlor Suite is designed to afford great comfort and unusually handsome appearance. The frame is Colonial in style, heavily built and generously proportioned. Notice the symmetrical, graceful sweeping curves embodied in the top, arms, front posts and panels under the arms. Made throughout of seasoned Northern birch, finished a rich shade of mahogany. The tops of arms and fronts of posts are rounded.

The upholstery materials are genuine and imitation leathers of guaranteed, long wearing qualities. The brown Spanish is particularly attractive and cheerful in appearance. The seats are uniformly upholstered over the best oil-tempered springs, which are permanently guaranteed.

## Real Worth and Satisfaction Coupled With Real Savings

**PRICE ONLY \$21<sup>90</sup>**

A Grand Opportunity to Furnish Your Parlor Neatly at Very Slight Expense

This Colonial three-piece parlor set is durably constructed, carefully finished and upholstered. The frames are of seasoned northern birch, of medium weight, and finished a rich shade of mahogany. Spring seats are upholstered over oil-tempered coil springs, covered with soft filling materials. The chair and rocker are of most comfortable size for anyone, the back of rocker being set at a comfortable angle. The large Colonial back panels harmonize with the shaped top, scroll arms and front posts.

The seats are smoothly covered with figured Chesterfield tapestry or black Boston imitation leather, which can scarcely be told from the real leather and which has noted excellent wearing qualities. We doubt whether you can duplicate this set in a retail store for less than 40 per cent more.

These pieces are not sold separately. Shipped carefully crated from Chicago factory. Prompt shipment and safe arrival assured. Shipping weight, 140 lbs.

**943652A** Chesterfield tapestry. **\$21.90**  
**943652B** Boston imitation leather. **23.65**

# A Luxuriously Comfortable Suite

We selected this overstuffed parlor, library or living room suite from thousands shown at the recent furniture exposition. We consider it as representing the greatest possible value obtainable at anything near our prices.

*If you want something extra fine, wonderfully comfortable and handsome enough for the finest home in America, order this big bargain. Take advantage of this golden opportunity to get this suite. Its possession will mark you as having the best of taste*

Up-to-date in every detail of construction and design. No better patterns are daily sold at \$100.00 or more. The coverings are also up-to-date and high grade. They are mottled brown Spanish leather of automobile body quality, also genuine Spanish brown leather. Both give years of splendid service and retain their appearance almost indefinitely.

The frames are of hardwood, legs and runners being finished dull rubbed mahogany. Chair and davenport have brass ferrules on the feet and expensive brass casters. The seats are soft and uniformly upholstered over indestructible coil springs, 15 in the davenport and six in chair and rocker. All seats are 16 inches high from the floor. Filling materials are elastic cotton felt over tow. All backs extend 26 inches above the seats, seats are 20 1/2 inches deep. Chair and rocker seats are 19 1/2 inches, davenport seat 43 inches between arms. Backs are extra wide, of artistic two-pillow effect and slanted for extreme comfort.

Made by skillful workmen. Softly padded roll arms. Shipped set up in wooden crates to assure safe arrival. Weight, 245 pounds. Shipped from Central New York.

Sent on Approval.

This handsome suite will almost completely furnish a parlor. It is sold on approval, the same as everything else in this book. All you have to do is send us your order together with your remittance. We will have a brand new, fresh, spic and span suite shipped right from the factory. Take a month to compare it, using it all the time. If you don't find it better in appearance and in every other respect, write for return instructions. We will send back your entire remittance and pay all freight charges both ways.

We couldn't make such a liberal guarantee unless it would delight you, could we? We have to please our customers or quit business.

# A Suite of Massive Magnificence

Heretofore one had to be rich or save for considerable time to own such a magnificent parlor suite. Our method of setting our prices as low as possible, depending on large sales for our profits, enables every honest person to have a real home. We believe every person who is willing to work is entitled to some of life's luxuries. We give you a real opportunity and hope you will avail yourself of it right now.

The very latest style in an extra high grade Parlor Suite. The simple colonial lines bring out the beautiful matched woods and hand polished finish perfectly. Arms, top, posts, feet and front rail show select matched quartered oak or genuine mahogany. All are of built-up non-warping stock. Spring seat, padded back and sides covered with guaranteed genuine black or tan Spanish leather. The upholstery represents the highest expert labor. Frames are cut from 4-inch stock. Rocker and chair seats are 22 inches wide. Divan 54 inches long. All springs are indefinitely guaranteed. Retail value \$87.50 to \$90.00. Shipped carefully crated from Chicago. Weight, 300 pounds.

# Comfortable Couches of New Design

Think for just a minute and then see if you could possibly invest a few dollars for a piece of furniture or anything else which would assist you in enjoying your leisure better than a comfortable couch. Besides comfort and usefulness it will be an ornament to any room.

**\$12<sup>95</sup>**

Although the price of every item entering into the construction of couches has advanced tremendously this year, we fortunately contracted for a quantity of these at a price far below that which most manufacturers ask. As we ship right from the factory in Chicago, you can plainly see the reason for the big saving to you.

While not as large or luxurious as our other couches shown below, it is well constructed and nicely finished. The frame is made of solid seasoned quarter-sawn oak and neatly ornamented with embossed carvings and shapely feet. The upholstery is a good grade of golden gloss varnish. The body contains 15 double-cone springs and there are 4 more in the head, making a total of 19 in all. Over the spring work is stretched a good quality of duck canvas. The filling materials are tow and cotton. Covering is diamond tufted over burlap.

ing buttons go entirely through the filling materials, and are clinched over steel washers, so there is no possibility of them pulling out.

Covered with Royal imitation leather, noted for its good wearing quality. Either black or the new tan Spanish.

Carefully packed and shipped with legs removed to save possible breakage and reduce freight charges materially. Shipping weight, about 90 lbs.

<b>943626A</b>	Black Royal Leather.....	<b>\$12.95</b>
<b>943626B</b>	Tan Spanish Royal Leather.....	<b>13.45</b>

## Smooth Top and Ruffled Sides

Here is another exceptional Couch value. Made throughout of select materials with large solid quarter-sawn oak sides. Artistic oak carving on head and foot, band sawed sides. Finished in a high-grade golden gloss. The body contains twenty springs securely fastened to a steel frame and guaranteed never to sag. This gives it a spring edge all around. The head has six additional springs. Over the springs is a soft, even filling of tow with a thick layer of cotton.

Covered with Royal imitation leather or guaranteed genuine leather. Length, 6 feet 4 inches; width, 27 inches. Shipped from Chicago, Ill. Safe arrival and prompt shipment assured—also the lowest freight rates. Weight, about 100 lbs.

W. & H. WALKER

## Walker's Flat Wall Paint.

Walker's Wall Paint is a ready mixed washable flat paint for inside use. It is a paint in liquid form ready to use—no kalsomine or water finish. It has all the beautiful effects of water colors together with the permanent washable qualities of oil paint. It makes a hard, elastic, durable flat finish, and may be washed or cleaned with soap and water. It is suitable for all interior decoration and is easily applied. Can be applied on walls, woodwork, metal, ceilings, radiators, plaster, concrete, burlap, canvas, old wall paper, kalsomine, window shades or as a foundation or under coat for enamel on walls and woodwork. Beautiful work can be done with it and it is easily applied. Prices on all numbers are as follows:

1 Gal.	Wt.	1/2 Gal.	Wt.	Quart	Wt.	Pint	Wt.
\$2.40	15 lbs.	\$1.28	10 lbs.	68c	5 lbs.	39c	2 1/2 lbs.

## Walker's Chair Paint

This paint we furnish in two shades—Moss Green and Cherry Red. It is made from durable outside varnish. It dries hard and is just the paint for wood, metal, willow and earthen ornaments and furniture exposed to weather. Walker Chair Paint will not get sticky and dries hard and glossy.

Cherry Red...	86c	5 lbs.	48c	2 1/2 lbs.	27c	1 1/4 lbs.
Moss Green...	68c	5 lbs.	39c	2 1/2 lbs.	26c	1 1/4 lbs.

## Walker's Screen Paint

Wire Screen Paint ready for use and easily applied. Does not clog mesh of screen and one coat gives to old rusty screens a rich, brilliant and lasting finish. Apply with varnish brush.

1 qt.	Wt.	1 pt.	Wt.	1/2 pt.	Wt.
47c	5 lbs.	24c	2 1/2 lbs.	14c	1 1/4 lbs.

## Walker's Gloss Enamel

A high grade interior enamel for woodwork, walls, furniture, iron beds, inside of ice boxes, outside of metal bath tubs, radiators and for all decorative work, as it will withstand repeated washings without destroying the high gloss, and steam or moisture does not affect it any. Can be applied on anything and everywhere. A small can is sufficient for an ordinary iron bed and will make it look like new. We are anxious that you give this enamel a trial. Apply with a varnish brush 1 1/2 to 2 1/2 inches in width. For painting very small articles use a sash tool. Shipping weight, 1 gal., 15 lbs.; 1/2 gal., 10 lbs.; quart, 5 lbs.; pint, 2 1/2 lbs.; 1/2 pint, 1 1/4 lbs.

## Walker's Floor Paint

For painting floors of kitchens, dining rooms, bed rooms, porches and steps. Our Floor Paint is the very best wearing floor paint manufactured. We guarantee every gallon and will furnish free paint for repainting if you do not find it exactly as we represent it to be. New or old floors which have not been previously painted require three coats. One gallon will cover from 250 to 300 square feet with two coats. Painted floors in fairly good condition require only one coat. One gallon will cover from 400 to 500 square feet with one coat. Prices on all numbers are as follows:

1 Gal.	Wt.	1/2 Gal.	Wt.	Quart	Wt.
\$2.40	15 lbs.	\$1.28	10 lbs.	68c	5 lbs.

## Walker's Roof and Barn Paint

A durable preservative of wood and metal. In mixing this paint the minerals are ground until they are of the same consistency as the finest powder. They are then mixed with our special oils, and the whole is ground in special machinery until the ingredients are thoroughly mixed. It is weather proof and durable as it soaks into the fibres and pores of the wood and metals, covering them with a coating that is absolutely impervious to the elements. You can do your own painting and with a little care, do as nice a job as a practical painter.

1 bbl., 50 gal.	Wt.	100 lbs.	per gallon	\$1.05

1 gal. Wt.	15 lbs.	Per gallon		1.20

## Walker's Flat Ground Color

Walker's Flat Ground Color, Light or Dark. Ground color is intended as a foundation for the other coats. Should you wish to varnish stain an old floor, or the woodwork or doors of a room give it a coat of the Ground Color. Allow it to dry 24 hours and finish with one or two coats of varnish stain.

1 Gal.	Wt.	Quart	Wt.	Pint	Wt.	1/2 Pint	Wt.
\$2.40	20 lbs.	\$1.28	15 lbs.	68c	10 lbs.	39c	2 1/2 lbs.

## Walker's Wagon Paint

Two quart cans will paint any ordinary wagon and make it look like new. A paint made expressly for wagon and farm implements. Has wonderful wearing quality and covering power, dries with a high varnish gloss and the colors are non-fading. Saves many times its cost in preventing rust and decay. Any one can apply it and do perfect work, as it is all mixed and ready for use. One coat is ordinary 1/2 inches in width. List of colors and prices:

\$3.15	\$1.65	86c			

## Walker's Varnish Stains

In selecting a color, it is necessary that it be a shade similar to the old finish. A piece of furniture finished in mahogany cannot be refinished in light oak by applying light oak varnish stain. The varnish stain will have to be a dark color, either mahogany or walnut. Ground color is intended only as a foundation for the other colors. Should you wish to varnish stain an old floor or the woodwork or doors of a room, give it a coat of the ground color. Allow it to dry 24 hours and finish with one or two coats of varnish stain. Send us an order and refinish some of the things around the house which look a little shabby. Every can is sold with our guarantee of satisfaction. Apply with a 2-in. varnish brush. For Ground Color see prices above.
